SOCIETY

Overview

Reental America, LLC has created a system for tokenizing both real estate investments and debt instruments, enabling a token holder to acquire and retain most of the rights and legal protections provided by traditional ownership of real estate and real estate-related debt instruments. This RentalToken system uses a Florida limited liability company (“LLC”) as an intermediary between the individual token holder and a property, debt instrument, or real estate investment in general. Ownership of Series RNT MAD-6, LLC is divided into approximately FOUR THOUSAND THREE HUNDRED NINETY-SIX (4,396) The company shares, or Shares, and the Shares are represented by the same number of unique cryptographic digital tokens, called RentalTokens. As digital representations of the Shares, the RentalTokens embody the legal characteristics of the Shares and carry all the rights and obligations associated with them. Like the Shares, the RentalTokens are securities for the purposes of U.S. securities law and are designed to comply with applicable U.S. federal and state securities regulations. See “Offered Securities – The RentalTokens” for further details.

The Issuer will hold specific debt instruments secured by a real estate asset or a share of the interest in an entity that owns the real estate. Ownership of any or all of the Issuer's 4,396 RentalTokens grants a person limited ownership and governance rights over the Issuer that issued the RentalTokens and, therefore, over the debt instruments linked to one or more real estate assets or the real estate assets themselves. Since the sole purpose of the Issuer is to hold certain debt instruments linked to one or more real estate assets, or the real estate assets themselves, ownership of all the RentalTokens issued by the Issuer is, in practice, equivalent to ownership of the underlying assets held by the Issuer, albeit with very limited control over the management and disposal of the assets or the debt instruments. Through the services of a management company, Rental America, LLC, the Issuer and the assets held by the Issuer can be managed and maintained with little or no involvement from individual RentalToken holders, while they retain full economic ownership of the asset or debt instrument. Both Rental America and Series RNT MAD-6, LLC are considered ignored entities for U.S. tax purposes and are not subject to federal income tax at the entity level. Investors are responsible for reporting income in their respective jurisdictions. Holders of the Participations will not receive an informational Form 1099, but a tax summary may be provided for informational purposes..

Series RNT MAD-6

The Participations and ReentalTokens described in this Memorandum are offered and sold by Series RNT MAD-6, LLC (the “Issuer”).

Series RNT MAD-6, LLC is a special purpose vehicle created specifically for this Offering, with the sole purpose of issuing digital securities in the form of RentalTokens and channeling the capital raised towards a single, clearly identified real estate transaction, in accordance with the terms described in this Memorandum.

The ReentalTokens have been designed to allow Investors to participate indirectly in the development of a real estate project located at Plaza Buenavista 8, in Navalcarnero, by formalizing a **Profit-Sharing Participation Agreement** with the project's operating entity.

Under this contract, the Issuer acquires an economic participation right over the results of the project, without holding direct ownership of the real estate asset or real rights over it.

The management, execution and ownership of the project correspond entirely to the operating entity, which acts together with the local promoter responsible for the development.

The expected return for investors is configured as **target return**, linked to the economic outcome of the real estate project, without being guaranteed in any case.

Series RNT MAD-6, LLC is managed by Rental America LLC, pursuant to a duly executed management agreement. Rental America LLC is responsible, among other functions, for structuring the transaction, overseeing the project, ensuring regulatory compliance, onboarding investors, and providing comprehensive administrative management for the Issuer.

In certain jurisdictions, such as Spain, Rental America LLC may coordinate fundraising and communications with Investors through Rental Token, S.L., an affiliated entity that operates the platform. www.reental.co.

In order to ensure proper legal, financial, and asset segregation, Series RNT MAD-6, LLC maintains its own accounting records and legal documentation, independent of those of any other entity related to Reental. All obligations and liabilities arising from this Offering are strictly limited to the Issuer's assets and operations.

Underlying Assets

The Issuer's assets will consist exclusively of the economic rights derived from **Joint Venture Agreements** signed with the entity operating the real estate project, as well as for the contractual rights associated with said agreement.

The funds raised in this Offering will not be allocated to a diversified investment portfolio or to multiple projects, jurisdictions, or strategies. All capital will be tied to a single real estate project, with no right of reallocation or reinvestment by the Manager.

Investors in Series RNT MAD-6, LLC hold interests exclusively in the Issuer and do not acquire direct rights over the underlying real estate asset or over contracts entered into with third parties.

The economic relationship of the Investors with the project is structured indirectly, through their participation in the Issuer and the economic rights derived from the Joint Venture Agreement.

The investment is structured as a share in the results of the real estate project and:

- It does not constitute a loan or a debt instrument;
- It does not generate credit rights against the operating entity;
- does not accrue interest;
- It does not include periodic payments during its term.

The distribution of results will take place at the close of the project, depending on its execution and the exit strategy.

The expected profitability for Investors, as well as the different return scenarios depending on the degree of compliance with the business plan, are described in the corresponding section of this Memorandum.

The investment carries inherent risks in real estate development, including execution, market and timing risks, so profitability is not guaranteed.

Legal Framework for Underlying Investments

The funds raised by Series RNT MAD-6, LLC will be deployed exclusively through a **Joint Venture Agreement** formalized in accordance with Spanish legislation with the operating entity of the real estate project.

This contract will regulate, among other aspects:

- the capital contribution by the Issuer;
- the rights to participate in the project's results;
- the benefit distribution scheme (waterfall);
- and the information and management obligations of the operating entity.

The use of debt financing structures or the formalization of loan agreements is not planned within the framework of this operation.

The investment does not include reinvestment of funds, asset rotation, or active cash flow management during the life of the project.

Consequently, the Manager has no discretion to reallocate, reinvest, or diversify the funds raised towards other projects or assets other than those expressly described in this Memorandum.

Investment Model Summary

The capital raised by Series RNT MAD-6, LLC (the "Issuer") will be allocated exclusively to investment in a single real estate project located in **Plaza Buenavista 8, in Navalcarnero**, in accordance with the terms described in this Memorandum.

The project consists of the transformation of an asset currently configured as a premises into a residential building consisting of eight (8) homes of approximately 85 m² each, along with common areas that include, among others, a gym, storage rooms and laundry.

The investment strategy is structured through the formalization of a **Profit-Sharing Participation Agreement** with the project's operating entity (the "Operating Entity").

Under this contract, the Issuer will participate in the economic results of the project, without acquiring direct ownership of the real estate asset or intervening in its management, which corresponds entirely to the Operating Entity.

The Operating Entity may undertake other activities and projects different from the one described in this Memorandum. However, the Issuer's participation will be contractually linked exclusively to the project described herein.

The project strategy focuses on a transformation and enhancement of the asset, whose action plan includes:

- the acquisition of the real estate asset;
- the execution of the transformation project (including change of use, construction and adaptation);
- the administrative and technical management necessary for its development; and
- the subsequent transfer of the asset through its marketing.

The objective of the operation is to generate economic results derived from the execution of the project and its subsequent divestment, which will be distributed to the Investors according to the distribution scheme established in this Memorandum.

This investment does not offer geographical or structural diversification on the part of the Issuer, with all the capital raised by this Offering being linked to a single real estate project.

Structured return model

The investment has been designed under a return-to-maturity model, with an estimated duration of twelve (12) months.

Under the contractual structure:

- No periodic distributions are planned during the life of the investment;
- The economic results of the project will be distributed upon closing of the operation;
- Profitability for investors is configured as **atarget return** linked to the economic outcome of the real estate project.

Achieving this profitability will be conditional upon the effective execution of the project, compliance with the planned deadlines and the availability of funds derived from the exit strategy, without any guarantee of profitability.

The estimated profitability for Investors, as well as the different applicable scenarios depending on the degree of compliance with the business plan, are specifically described in the corresponding section of this Memorandum.

The investment involves risks inherent in real estate development, including execution, market and timing risks.

Deadline

The estimated duration of the project is twelve (12) months from the completion of the financing process of the Offer.

Automatic extensions are not contemplated, although the term may be adjusted depending on the evolution of the project, market conditions or operational circumstances, as provided for in the contractual documentation.

Since the investment is structured through a joint venture agreement, the recovery of invested capital and the achievement of profitability will depend on the economic outcome of the project and its effective divestment.

Consequently, the investment involves the risk of total or partial loss of the invested capital, as well as the risk of not achieving the estimated profitability.

Professional structuring and supervision

Rental has established itself as a leading real estate tokenization platform in Europe and Latin America, with a growing global presence. The company features:

- More than 32,500 registered users from over 90 countries.
- More than 100 tokenized real estate projects, in residential, tourist, co-living and development assets.
- More than 90 million euros in tokenized assets under management.
- A proven track record of delivering stable average returns to investors.

This track record demonstrates Rental's ability to design efficient investment structures, manage multi-asset strategies, and execute transactions effectively across its ecosystem, providing investors with clear, predictable, and professionally managed opportunities.

Operating expenses

Series RNT MAD-6, LLC will assume the **ordinary expenses** of a legal, accounting, regulatory compliance, investor reporting and administrative nature (the **“Operating Expenses”**). These expenses will generally be covered by the **cash flows generated by the underlying assets**.

In the event of **temporary liquidity imbalances**, **Rental America LLC** may advance funds to cover these expenses, which will be recorded as **repayable obligations**. The Manager assumes its own corporate costs (salaries, offices, etc.) and will only charge the Issuer those expenses **directly attributable** Likewise. Given the expected monthly cash flow from the investments, the Issuer does not anticipate incurring significant repayment obligations.

Risk mitigation and liquidity options

The structure of Series RNT MAD-6, LLC (the “Issuer”) has been designed to channel Investors’ capital into a single, clearly identified real estate transaction, avoiding the allocation of funds to multiple projects, assets, or jurisdictions.

Consequently, the Issuer will not allocate the capital among different projects or markets, nor will it apply geographic or structural diversification strategies. All funds raised in this Offering will be used exclusively for investment in the real estate project located in **Plaza Buenavista 8, in Navalcarnero**, in accordance with the terms described in this Memorandum.

Investors will receive periodic reports prepared by the Manager, providing up-to-date information on the project's status, the achievement of relevant milestones, and the investment's performance, with the aim of ensuring an appropriate level of transparency throughout the life of the operation. The frequency and content of these reports will conform to the provisions of the applicable contractual documentation.

This Offer does not include contractual mechanisms for early liquidity, guaranteed secondary markets, or repurchase agreements. Investors should assume that the investment is illiquid until the project is completed.

Lending entity and alignment of interests

The investment is structured through a **Profit-Sharing Participation Agreement** signed between the Issuer and the company promoting the project, **INVERIN, S.L.** (the “Operating Entity”).

INVERIN, S.L. will be the entity responsible for the acquisition of the real estate asset located in **Plaza Buenavista 8, in Navalcarnero**, as well as the complete execution of the project, including the transformation of the asset, the administrative and technical management, and its subsequent commercialization.

Under the joint venture agreement, the Issuer will participate in the economic results of the project, without holding direct ownership of the real estate asset or real rights over it.

INVERIN, S.L. has been selected as the Operating Entity based on its experience in developing real estate projects and its execution capacity. However, the Operating Entity is not a sole-purpose company and may undertake other activities or projects.

The supervision of the operation is structured through:

- the formalization of binding contracts;
- contractual reporting obligations; and
- the Manager's continuous monitoring of the project's development.

These mechanisms are intended to preserve the interests of the Issuer and, indirectly, of the Investors, without implying any guarantee of outcome.

Managing entity

Reental America LLC, a limited liability company incorporated in the State of Florida on **August 5, 2022**, acts as Manager (“**Manager**”) of the Issuer.

The Manager coordinates the structuring, operational supervision and administrative management of Series RNT MAD-6, LLC, as well as the incorporation of Investors, through the web platform www.reental.co, operated in Spain by **Rental Token, S.L.**

The Issuer's Shares are offered and sold through this platform.

The Gesturer **will not receive or acquire RentalTokens** from Series RNT MAD-6, LLC as consideration for its management function.

The Manager's registered office is located at:
201 Alhambra Circle, Suite #1050
Coral Gables, FL 33134
Telephone: (305) 735-6565

Exit fees

For Series RNT MAD-6, no performance-based commission (“Carry”) applies.

The only fee associated with this offer is the subscription fee, nine percent (9%), deducted upfront at the time of investment. There are no performance fees, exit fees, or performance-linked redemptions at maturity.

This structure ensures that all Investors participate under the same contractual framework, with returns derived exclusively from the performance of the underlying assets and without additional deductions.

Operating expenses

Following the initial closing of this Offering, Series RNT MAD-6, LLC (the “Issuer”) will be responsible for covering certain costs and expenses associated with the execution, monitoring and administration of the transaction (collectively, the “Operating Expenses”).

These Operating Expenses may include, among others:

- legal, accounting, regulatory compliance and investor reporting costs associated with the administration of the Issuer and the management of the investment;
- fees and expenses related to the preparation and presentation of financial information, including accounting services, auditing (if required) and regulatory obligations;
- costs arising from external service providers, including onboarding services, KYC/AML, investor registration, administrative agents, technology custodians or banking partners;
- expenses associated with tax obligations in the United States and, where applicable, in Spain;
- indemnification obligations, as well as reasonable allocations of reserves to address possible claims related to the Issuer's operation;
- insurance premiums and other administrative coverage costs directly linked to the Issuer; and
- any other expenses that the Manager considers reasonable and necessary for the proper execution of the Offer and the ordinary administration of the Issuer, provided that they are directly related to this transaction.

The Issuer's assets consist exclusively of the economic rights derived from **Profit-Sharing Participation Agreements** signed with the project's operating entity, **INVERIN, S.L.**, for the execution of the real estate project located in **Plaza Buenavista 8, in Navalcarnero**.

The Issuer will not have a diversified portfolio of assets, multiple investment contracts, or asset rotation during the life of the transaction. All capital will remain tied to a single real estate project.

Since the project structure does not include recurring income during its execution, the economic results will foreseeably materialize at the project's closure, once the divestment strategy is completed.

Operating expenses will be covered in accordance with the provisions of the applicable contractual documentation.

In the event of temporary liquidity imbalances, Rental America LLC may, at its discretion, advance funds to cover such expenses. Any advance will be recorded as a repayable obligation of the Issuer and will be repaid from funds available at the time of the distribution of project results or other legitimate income of the Issuer.

The Manager will assume its own general and corporate expenses (including salaries, offices, supplies and internal structure), and will only charge the Issuer those expenses that are directly and reasonably attributable to this transaction.

Given the estimated duration of the project and the investment structure, the Issuer is not expected to incur any significant additional obligations beyond the ordinary costs associated with managing the vehicle and monitoring the investment until the project's completion.

Distribution rights

“Free Cash Flow” consists of the net income (as determined under U.S. Generally Accepted Accounting Principles (“GAAP”)) generated by the Issuer, plus any changes in net working capital and depreciation and amortization (and any other non-cash Operating Expenses), and less any capital expenditures related to the Underlying Assets. The Manager may hold Free Cash Flow funds in a deposit or investment account for the benefit of the Issuer.

The Manager has full discretion to determine the timing and amount of any Free Cash Flow distributions to the holders of the Units (“Unit Holders”). Any Free Cash Flow generated by the Issuer will be applied within the Issuer in the following order of priority:

- First, to reimburse any outstanding amounts under the Operating Expense Reimbursement Obligations plus accrued interest (if any);
- Second, to create the reserves that the Manager deems necessary, at its sole discretion, to cover future Operating Expenses and operational contingencies; and
- Third, 100% (net of corporate income taxes applicable to the issuer) will be distributed to the Holders of Participations in proportion to their participation.

Regarding the income generated through the Underlying Assets, net of applicable Operating Expenses, The Manager expects to distribute these net proceeds to the Shareholders as dividends, in accordance with this distribution cascade.

Distribution deadlines and method

The investment in Series RNT MAD-6, LLC has been structured under a return-to-maturity model, with no periodic distributions planned during the project's term.

Consequently:

- No monthly, quarterly or other periodic distributions will be made during the life of the investment;
- The Manager will not have discretionary powers to make intermediate payments to the RentalToken Holders;
- The distribution of capital and results will be made through a single payment at the close of the project, in accordance with the terms established in the contractual documentation.

The payment due will include, where applicable:

- (i) the full or partial recovery of the invested capital; and
- (ii) the participation in the economic results of the project, calculated according to the distribution scheme (waterfall) provided for in this Memorandum.

The expected return for investors is configured as **target return**, linked to the economic outcome of the real estate project.

The estimated investment period is twelve (12) months.

Since the investment is structured through a joint venture agreement, the recovery of capital and the obtaining of profitability will depend exclusively on the execution of the project and the availability of funds derived from its divestment, without any guarantee of full recovery of capital or of the estimated profitability.

No maturity bonus, loyalty scheme or additional capitalization mechanism other than those expressly provided for in this Memorandum applies.

Payments to Investors will be subject, where applicable, to applicable tax withholdings and will be made in accordance with the operating procedures of the Issuer and the Manager.

Payments in case of early termination

In the event of an early liquidation event relating to Series RNT MAD-6, LLC, the available funds will come from the economic results derived from the real estate project and any amounts available to the Issuer at that time.

The resulting net amounts, after deducting applicable taxes and expenses directly attributable to the settlement, will be distributed according to the following order of priority (waterfall):

- (i) firstly, the payment of the Issuer's third-party creditors, if any;
- (ii) secondly, the payment of outstanding obligations to the Manager or related entities, exclusively to the extent that they correspond to duly documented reimbursable expenses; and
- (iii) lastly, the distribution of one hundred percent (100%) of the remainder to the RentalToken Holders, in proportion to their participation in the Issuer.

For further details, see the section “Values Offered — Rights in Case of Liquidation”.

Restrictions on the transfer

The Manager may refuse a transfer by a Unit Holder of their Units for any reason, at its sole discretion, including if such transfer would result in (a) there being more than 2,000 beneficial owners in the Issuer or more than 500 beneficial owners who are not “accredited investors”, (b) the Issuer’s assets being considered “plan assets” for purposes of the Employees Retirement Income Security Act of 1974 and its regulations, as amended (“ERISA”), (c) a change in the federal tax treatment of Reental America and/or the Issuer, or (d) Reental America, the Issuer or the Manager becoming subject to additional regulatory requirements. Furthermore, because the Shares are not registered under the Securities Act, transfers of Shares to or within the United States may only be effected pursuant to exemptions under the Securities Act and if permitted by applicable state securities laws. See “Offered Securities – Transfer Restrictions” for further information.

CAPITAL FLOWS AND DISTRIBUTION MECHANICS

General Structure of Capital Flows

The investment described in this Whitepaper is structured in such a way that the investor's economic rights derive exclusively from his participation in the corresponding issuing vehicle (the Issuer), whether it is a Series LLC or another special purpose entity.

For the purposes of raising capital, banking operations and efficient distribution of returns, Reental may rely on affiliated entities and operating platforms that perform technical and administrative functions within the Reental ecosystem.

Operational Role of Rental Token and Affiliated Entities

Certain entities within the Rental group—including, but not limited to, Rental Token, S.L.—may participate in the operation of a project by performing one or more of the following functions:

- Support for fundraising activities and investor onboarding;
- Operational receipt of funds, whether from investors or the underlying asset or the borrower, acting in all cases on behalf of the entity with economic right;
- Coordination and technical execution of the distribution of returns to investors;
- Provision of technological infrastructure that allows automated or semi-automated claims and payment processes.

These entities act exclusively as operational and technological intermediaries, and do not acquire economic ownership or any right of benefit over the funds managed in relation to the project.

Economic Ownership of the Funds

All invested funds and returns generated by the underlying asset or the corresponding contractual structure:

- They belong economically and legally to the Issuer or, where applicable, to the borrowing entity or the corresponding project entity;

- They do not constitute income, profits or guarantees of any operating or affiliated entity involved in the receipt or payment of funds;
- They do not alter or replace the economic rights or risk exposure of investors, which derive exclusively from their participation in the Issuer.

Any receipt or temporary disbursement of funds by operating entities is made on behalf of the entity with economic right, without this implying assumption of credit risk, performance obligations or guarantees by said operating entities.

Technological Infrastructure, Wallets and Lack of Custody

In relation to the operation of the project, Reental will be able to make available to investors and the Issuer technological infrastructure intended to facilitate the distribution of returns, including digital interfaces, smart contracts and automated payment processes.

Under no circumstances will Rental Token, S.L., Reental America LLC or any other operating or affiliated entity of Reental act as custodian of investor funds, nor will it maintain, control or have access to the private keys of wallets belonging to third parties, including investors, issuers or other affiliated entities.

The wallets used in connection with the project:

- They are the exclusive property of their respective owners (investors, issuers or other entities with economic rights);
- They remain under the direct control of said holders or, where applicable, of third-party custody providers designated by them;
- They will be able to interact with Reental's technological infrastructure only for the execution of previously defined payment or distribution instructions, without any delegation of custody or discretionary control.

Distribution of Returns

For reasons of operational and technological efficiency, the distribution of returns may be carried out as follows:

- Through traditional bank transfers;
- Through interactions with smart contracts or automated distribution systems;
- Through claim-based processes initiated directly by investors from their own wallets.

In all cases, Reental and its affiliated entities act exclusively as technological facilitators and operational coordinators, without assuming custody functions, discretionary asset management powers or control over third-party funds.

The fact that a payment is executed through an entity other than the Issuer does not alter the nature or origin of the investor's economic rights, which remain exclusively linked to the Issuer and the underlying investment.

Operational Nature of the Flows and Absence of Guarantees

The inflow and outflow of funds managed by Rental's operating entities have an instrumental and administrative character, comparable to payment mechanisms on behalf of third parties or operational escrow structures, without implying custody of funds.

Consequently:

- No operating entity or affiliate guarantees the payment of returns or the return of invested capital;
- The payment schedule may be affected by operational, banking, technological, exchange rate or settlement processes;
- The entire economic risk of the investment rests with the Issuer and the underlying asset or the corresponding contractual structure.

Transparency and Traceability

Rental maintains internal accounting and operational control systems designed to ensure the traceability of:

- The economic origin of the funds;
- The entity with economic rights at each stage of the process;
- The amounts made available for distribution and the amounts actually received by investors.

Investors recognize that the multinational and technologically enabled nature of the Rental structure entails a greater degree of operational complexity compared to traditional investment structures limited to a single jurisdiction.

THE OFFER

The Issuer: Series RNT MAD-6 LLC (“Series RNT MAD-6”) is a newly incorporated limited liability company (LLC) in Florida (the “Company”).

A maximum of **four thousand three hundred ninety-six (4,396)** Membership shares in the Issuer for a maximum aggregate amount of **four hundred thirty-nine thousand six hundred euros (€439,600)**.

Investors are not expected to receive distributions during the project's life, which is estimated to last twelve (12) months. The return of invested capital and, where applicable, the realization of returns, will occur at project completion through a single distribution in accordance with the terms established in the applicable contractual documentation.

The expected return for investors is configured as **atarget return**, linked to the economic outcome of the real estate project, without such profitability being guaranteed.

Since the investment is structured through a joint venture agreement, the recovery of the invested capital will depend on the effective execution of the project and the availability of funds derived from its divestment, with the risk of total or partial loss of the invested capital.

Investors who are U.S. persons will be subject to an absolute statutory blocking period of one (1) year, pursuant to applicable securities legislation in the United States and, in particular, Regulation D and Regulation S, during which they may not transfer, assign or otherwise dispose of the Participations.

No additional contractual lock-up period is imposed, beyond the applicable legal restrictions on securities.

Participations in the RNT MAD-6 Series: The Participations will be issued in the form of cryptographic digital tokens called "Series RNT MAD-6 ReenaTokens." The Series RNT MAD-6 ReenaTokens constitute a new Series of digital tokens based on smart contracts on a blockchain under the AGNOSTIC TOKEN protocol standard, modified to comply with transfer restriction requirements under applicable U.S. securities law. The smart contract software code for the Series RNT MAD-6 ReenaTokens will be based on open source code but will be private and not publicly available at this time. The Series RNT MAD-6 ReenaTokens will be hardcoded with a "restricted value" legend as a token attribute. Generally, the Series RNT MAD-6 ReenaTokens will have a holding period of one (1) year before U.S. holders may freely trade such digital tokens on a Designated Token Exchange (as defined below).

Token Identifier: MAD-6

Offer Price for RNT MAD-6 Series RentalToken: The offer price for each Series RNT MAD-6 RetailToken is €100.

Minimum Investment: The minimum investment amount for an investor who is a U.S. Person is one hundred (100) Units, although Rental America, at its sole discretion, may accept a lesser amount. Investors who are excluded from the definition of "U.S. Person" under Regulation S and who invest under the Regulation S exemption may purchase a minimum of one (1) Unit.

No Minimum Bid Amount; No Escrow Agent:

The Issuer has not engaged an external bank or financial institution to act as escrow agent. Cash or cryptocurrency payments will be held by the Issuer or one of its Affiliates in a segregated business account until the investor's subscription closes or is rejected, and will thereafter be immediately available for the Issuer's use in accordance with the purpose of disbursement set forth in this Memorandum.

Payment Method for RNT MAD-6 Series RentalTokens:

The offering price for Series RNT MAD-6 Residential Tokens will be denominated in euros. Purchases can be made in euros or US dollars. When payment is made in US dollars, the number of tokens allocated will be calculated using the euro-dollar exchange rate in effect on the date the funds are received.

Exchange Rates for Purchases:

Investors will receive a number of Series RNT MAD-6 RentalTokens equal to the amount subscribed in euros, divided by the offering price per token. Although the subscription currency is the euro, investors may also make payments in US dollars. When payment is made in US dollars, the amount received will be converted to euros using the EUR/USD exchange rate in effect on the date the funds are received, and the corresponding number of tokens will be allocated accordingly. All calculations, token allocations, and reports for this Offering will be expressed in euros as the reference currency.

Digital Wallets:

To receive Series RNT MAD-6 RentalTokens, investors must have an AGNOSTIC TOKEN-compatible digital wallet or other storage mechanism (“Digital Wallet”), including a precise digital address associated with that Digital Wallet or storage mechanism (“Digital Asset Receiving Address”), that supports Series RNT MAD-6 RentalTokens. The Issuer is not responsible for delays, losses, costs, non-delivery, or refunds of Series RNT MAD-6 RentalTokens, or for any other issues arising from the holder's failure to provide a Digital Asset Receiving Address or providing an inaccurate or incomplete address. Failure to comply with these procedures will result in the non-receipt of Series RNT MAD-6 RentalTokens. The Issuer reserves the right to impose additional requirements regarding the storage mechanism for Series RNT MAD-6 RentalTokens.

Divisibility:

Following the issuance of the Series RNT MAD-6 RentalTokens, the Issuer may allow the tokens to be divisible (or fractional) up to ten (10) decimal places.

Best Efforts:

This Offer is made on a “best efforts” basis. The Issuer does not guarantee that all 4,396 RNT MAD-6 Series Shares will be sold and reserves the right to terminate the Offer before all Shares are sold.

Buyers; Eligibility:

Each investor must: (a) if located in the United States, or be a U.S. Person (as defined in Regulation S under the Securities Act), be a verified “accredited investor” (as defined in Regulation D under the Securities Act); or (b) if located outside the United States, be an investor excluded from the definition of “U.S. Person” in Regulation S, who is not purchasing for the account or benefit of a U.S. Person, and who is eligible to acquire and hold RNT MAD-6 Series pursuant to the applicable laws of the investor's jurisdiction. In the United States, the Offering is made pursuant to Rule 506(c) of Regulation D under the Securities Act.

Closings; Termination of Offer:

Rental America may conduct a series of closings on a rolling basis as funds and investment documents are received. This Offering will terminate on the earliest of the following dates: (i) when the maximum amount of the offering has been sold; (ii) ninety (90) days after the Offering launch date, unless extended at Rental America's sole discretion; or (iii) on the date the offering is terminated early by Rental America at its sole discretion (“Initial Closing Date”).

Destination of the funds:

The net funds obtained in this Offer will be used exclusively for investment in the real estate project located in **Plaza Buenavista 8, in Navalcarnero**, through the formalization of a **Profit-Sharing Participation Agreement** with the project's promoting company, **INVERIN, S.L.**, in its capacity as an Operating Entity.

This investment will be for the purpose of acquiring the real estate asset and carrying out the transformation project, including the change of use, the execution of the work, the adaptation of the property and the coverage of the costs directly associated with the development of the project, in accordance with the provisions of the applicable contractual documentation.

The destination of the funds will be contractually defined in the Joint Venture Agreement, and their allocation to other projects, assets or investment strategies other than those described in this Memorandum is not foreseen.

Notwithstanding the foregoing, the Issuer may use available funds to cover those **Operating Expenses** directly linked to the structuring, administration and monitoring of this operation, under the terms provided in this Memorandum.

Rights of Holders of RNT MAD-6 Series Shares:

Holders of Series RNT MAD-6 Participations shall have the rights described in the Issuer's Operating Agreement, a copy of which is attached as Annex A and summarized below:

Voting: Each registered holder of a Series RNT MAD-6 RentalToken will have the limited voting rights allocated to the RentalTokens, as set forth in the Operating Agreement. These voting rights generally include one vote per Participation on all matters submitted to a vote by Series RNT MAD-6 members.

Dividends: Holders of RNT MAD-6 Series Shares will be entitled to receive dividends that may be declared from time to time by the Manager.

Liquidation: In the event of liquidation, dissolution or cessation of activities, after the payment of all debts and other liabilities, the holders of Series RNT MAD-6 RentalTokens will be entitled to participate proportionately in the net assets legally available for distribution.

Applicable law:

The Subscription Agreement shall be governed by the laws of the State of Florida.

Risk factors:

Investing in Series RNT MAD-6 involves risks. See the section titled "Risk Factors" in this Memorandum and other information included herein for an analysis of the factors you should carefully consider before deciding to invest in Series RNT MAD-6.

RISK FACTORS

The Shares, in the form of Series RNT MAD-6 RentalTokens, offered herein are highly speculative in nature, involve a high degree of risk, and should only be purchased by persons who can afford to lose their entire investment. There can be no guarantee that the Company's investment objectives will be achieved or that a secondary market for the Shares will develop, either through the RentalToken website, through registered third-party brokers, or otherwise. The risks described in this section should not be considered an exhaustive list of the risks that prospective investors should consider before investing in Series RNT MAD-6 RentalTokens. Prospective investors should obtain their own legal and tax advice before making an investment in Series RNT MAD-6 RentalTokens and should be aware that an investment in Series RNT MAD-6 RentalTokens may occasionally be exposed to other risks of an exceptional nature. The following considerations are among those that should be carefully evaluated before investing in the RNT MAD-6 ResidentialTokens Series.

Risks Related to the Structure, Operation and Performance of Rental America

An investment in the Offering constitutes only an investment in the Issuer and not in Rental America or the Underlying Asset.

The acquisition of the Shares does not constitute a direct investment in either Rental America or the Underlying Asset. This results in limited voting rights for the investor, which relate solely to the Issuer. Investors will only have voting rights with respect to certain matters, primarily related to the possibility of removing the Manager for cause (as defined in the Operating Agreement). Therefore, the Manager retains significant control over the management of the Issuer and the Underlying Asset. Furthermore, since the Shares do not constitute an investment in Rental America, the holders of the Shares will not receive any economic benefits from, nor be subject to, the liabilities of the assets of any other entity managed by the Manager. Furthermore, a holder's economic interest in the Issuer will not be identical to that of owning a direct and undivided stake in the Underlying Asset, since, among other things, the Issuer will be required to pay corporate taxes before making distributions to holders, and the Manager will receive a commission for managing the Underlying Asset.

The issuer was recently established, has no history, and lacks operational background from which this investment can be evaluated.

The Issuer was recently incorporated and has no revenue or operating history upon which potential investors can assess its performance. There is no guarantee that the Issuer will achieve its investment objectives, that the value of the Underlying Asset will increase, or that the Underlying Asset will be successfully monetized or tokenized.

Given the nascent nature of the Issuer, it is possible that investors may not be interested in investing and that we may not be able to raise all the capital we seek for the Issuer or for any future Series, which could have a material adverse effect on the Issuer and the value of its Shares.

Due to the Issuer's start-up nature, we cannot guarantee that we will reach our funding target from potential investors. Should we fail to reach this target, we may not be able to achieve our investment objectives by acquiring additional underlying assets through the issuance of new Series of shares and monetizing them together with the Underlying Asset to generate distributions to investors. Furthermore, our failure to fund the Issuer could lead to the termination of the business without achieving our objectives, and you could experience difficulties in obtaining a return on your investment.

There are few, if any, businesses that have followed a similar investment strategy or objective to that of Rental America, which may hinder market acceptance of both Rental America and the Shares.

We do not believe any other company crowdfunds tokenized real estate assets, shares in real estate investment clubs, or proposes to operate a crowdfunding platform for tokenized real estate shares. Rental America and the Shares may not achieve market acceptance from potential investors, borrowers, or service providers within the real estate industry, including insurance companies, appraisers, and strategic partners. This could result in the Manager's inability to operate the Underlying Asset profitably. Furthermore, the failure of our business model to gain investor acceptance could lead us to terminate the business, which could make it difficult for you to receive any distribution or return on your investment from the Issuer.

Operating expenses that arise after the initial closing will reduce potential distributions, if any, and the potential return on investment derived from the appreciation of the Underlying Asset, if any.

Operating expenses incurred after the initial closing will be the responsibility of the Issuer. However, if operating expenses exceed the income generated by the Underlying Asset, the Manager will lend the Issuer the amount of the operating expenses, on which it may charge a reasonable interest rate, and will be entitled to repayment obligations for those expenses. If an operating expense repayment obligation exists, this related-party repayable amount will be deducted from the free cash flow generated by the Issuer and could

reduce the amount of future distributions payable to investors. If additional units are issued, this would dilute the present value of the units held by existing investors and the amount of future distributions payable to those investors.

The Issuer's success depends largely on the Manager and their ability to execute our business plan.

The success of the Issuer's operation (and therefore the success of the Shares) depends in part on the Manager's ability to identify and manage the underlying assets. Since the Manager has only existed since August 5, 2022, and is a startup company, it lacks a significant operating track record in the real estate sector to demonstrate its ability to identify, acquire, manage, and utilize the underlying assets. The Manager's failure to operate and develop our business could result in the loss of your investment in the Issuer.

The success of the Issuer (and therefore the Units) will depend largely on the expertise and performance of the Manager and its team, its network of experts, and other investment professionals (including external experts) in identifying, acquiring, and managing the underlying assets. There is no guarantee that these individuals will remain associated with the Manager. The loss of the services of one or more of these individuals could have a material adverse effect on the underlying assets, in particular their continued management and use to support the investment of the Unit holders.

Furthermore, the Issuer's success and the value of the Shares depend on a critical mass of demand for the Shares and the Issuer's ability to acquire additional underlying assets. If we are unable to identify additional underlying assets due, for example, to competition for such assets or a lack of available assets in the market, this could materially affect the Issuer's success and its objectives of acquiring additional underlying assets.

The power of attorney provisions of the Operating Agreement could adversely affect an investor's investment in the Shares.

Investors who acquire Shares will be subject to the provisions of the Operating Agreement, including those under which the investor grants the Manager a power of attorney to, among other things, execute and file documents required for the qualification, continuation, or dissolution of the Issuer. This power of attorney also includes a provision under which the investor waives any defense that may be available to challenge, deny, or invalidate the Manager's action taken in good faith under the power of attorney. This power of attorney and the waiver may limit an investor's ability to take certain actions that it considers prudent and could result in unfavorable outcomes for the investor.

A possible breach of the security measures of the ReentalToken website could have a material adverse effect on Reental America, the Issuer and the value of your investment.

The highly automated nature of the ReentalToken website, through which prospective investors acquire or transfer shares, may make it an attractive and potentially vulnerable target for cyberattacks, computer viruses, physical or electronic intrusions, or similar disruptions. The ReentalToken website processes certain sensitive information about investors, the Issuer, and the underlying assets. While we intend to take commercially reasonable steps to protect our sensitive information and maintain adequate cybersecurity, the security measures of the ReentalToken website, Reental America, the Manager, or our service providers (including the Investment Banking Advisor) could be compromised. Any accidental or intentional breach of security or other unauthorized access to the ReentalToken website could result in the theft of sensitive information and its use for criminal purposes or other harmful effects. Security breaches or unauthorized access to confidential information could also expose us to liability related to data loss, costly and time-consuming litigation, negative publicity, or loss of the proprietary nature of the Manager's and Issuer's trade secrets. If security measures are compromised due to third-party actions, employee error, misconduct, or otherwise, or if design flaws in the ReentalToken website software are exposed and exploited, the relationships between Reental America, investors, users, and the Issuer could be seriously damaged, and the Issuer or Manager could incur significant liability or have their attention significantly diverted from the utilization of the underlying assets, which could have a material negative impact on the value of the shares or their distribution potential.

Because the techniques used to sabotage or gain unauthorized access to systems change frequently and are generally not recognized until they are launched against a target, Reental America, the Issuer, the third-party hosting provider used by the ReentalToken website, and other third-party service providers may be unable to anticipate these techniques or implement adequate preventative measures. Furthermore, federal regulators and many federal and state laws and regulations require companies to notify individuals about data security breaches involving their personal data. These mandatory disclosures about a security breach are costly to implement and often lead to widespread negative publicity, which can cause investors, borrowers, or service providers within the industry, including insurance companies, to lose confidence in the effectiveness of ReentalToken's website security. Any security breach, whether real or perceived, would damage our reputation and that of the ReentalToken website, and we could lose investors. This would impair our ability to achieve our objectives of acquiring additional underlying assets through the issuance of new Series of shares and their monetization together with the Underlying Asset.

Failure to comply with the regulations may result in the abrupt cessation of business operations, the termination of any contracts entered into, the early termination of any sold shares, or, if Rental America is deemed to be subject to the Investment Advisers Act, the liquidation and dissolution of the Issuer and any sold shares.

The Shares are being sold by the Manager, who is not a registered broker-dealer under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and who will not be registered in every state where the Offering and Sale of the Shares takes place. If a regulatory authority determines that the Manager, who is not a broker-dealer registered under the Exchange Act or state securities laws, has engaged in brokerage activities, the Manager may be required to cease trading, and the Issuer could therefore be left without an entity to manage the Underlying Asset. In addition, if the Manager is required to register as a "broker-dealer," there is a risk that any Series of Shares offered and sold while the Manager was not registered may be subject to a right of rescission, which could result in the early termination of the Issuer.

Furthermore, the Issuer is not and will not be registered as an investment company under the Investment Companies Act 1940, as amended (the "Investment Companies Act"), and the Manager is not and will not be registered as an investment advisor under the Investment Advisers Act 1940, as amended (the "Investment Advisers Act"), and therefore the Units are not protected by those laws. The Issuer and the Manager have adopted the position that the underlying assets are not "securities" within the meaning of the Investment Companies Act or the Investment Advisers Act, and therefore the Issuer's assets will comprise less than 40% investment securities under the Investment Companies Act, and the Manager will not provide advice regarding securities under the Investment Advisers Act. However, this position is based on applicable case law, which is subject to judgment and interpretation. If the Issuer were required to register under the Investment Companies Act or the Manager under the Investment Advisers Act, it could have a material and adverse impact on the Issuer's operating results and expenses, and the Manager could be forced to liquidate and dissolve the Issuer or terminate the Offer of the Shares or the offer of any other Series of Shares.

Risks Related to the Real Estate Industry

The Issuer is expected to invest solely in the Underlying Asset; therefore, its investment will not be diversified and will appreciate or depreciate, as the case may be, based on the value of the Underlying Asset regardless of market conditions.

The Issuer is not expected to hold any assets other than the Underlying Asset, nor any cash reserves for maintenance, insurance, or other expenses related to the Underlying Asset or any proceeds the Issuer may receive from monetizing the Underlying Asset. Investors seeking diversification should build their own diversified portfolio by investing in opportunities other than the Issuer.

There are inherent risks in real estate investments

Investments in real estate assets such as the underlying assets of the RNT MAD-6 Series are subject to varying degrees of risk, including:

- General economic conditions;
- Increase in interest rates;
- Excess local supply, increased competition, or reduced demand for student housing;
- Inability to collect rent from tenants;
- Inability to generate income from the underlying asset;
- Vacancies or inability to rent beds under favorable conditions;
- Changes in senior management or key personnel;
- Costs of complying with changes in government regulations;
- Default on debt instruments secured by real estate;
- Inability to pay or refinance incurred debts;
- Natural disasters or similar events.

Furthermore, periods of economic slowdown or recession, rising interest rates, or declining demand for real estate, or the public perception that any of these events may occur, could result in a general decrease in rents or an increase in the incidence of defaults under existing lease agreements, which would negatively affect us.

The Issuer may be negatively affected by increases in real estate operating costs.

Residential investment properties are subject to increases in operating expenses such as maintenance, insurance, and administrative costs, as well as other overhead costs associated with security, landscaping, repairs, and upkeep. If operating expenses increase, competition in local rental markets may limit the extent to which rents can be raised to cover expenses without decreasing occupancy rates, which could affect the Issuer's ability to resell its properties to third parties in a timely and profitable manner.

The discovery of previously undetected hazardous environmental conditions can adversely affect the emitter's operating results.

Under various local environmental laws, ordinances, and regulations, a current or former owner or operator of real property may be liable for the cost of removing or remediating hazardous or regulated substances on, under, within, or around that property. The costs of investigating, removing, or remediating such substances could be substantial. Such laws may impose liability regardless of whether the owner or operator knew of or was responsible for the presence of the substances. Environmental laws may also impose restrictions on how the property can be used or how businesses can operate, and compliance with those restrictions may require considerable expense. Environmental laws provide for penalties for noncompliance and may be enforced by government agencies or, in certain circumstances, by private individuals. Certain environmental laws and common law principles regulate the presence, maintenance, removal, and disposal of certain building materials, including mold, asbestos, and lead-based paint.

The cost of defending against such liability claims, complying with environmental requirements, remediating any contaminated property, or paying personal injury claims could materially and adversely affect Rental America's business, assets, or operating results and, consequently, its ability to meet its financial obligations.

Expropriation of land

The real estate assets, or a portion thereof, could be subject to eminent domain or reverse expropriation. Any such action could have a material adverse effect on the value or marketability of the real estate assets, as well as on the amount received from the final sale.

Increases in property taxes

Real estate assets may be subject to property taxes, which can increase as tax rates change and as the asset is assessed or reassessed by the tax authorities. Failure to pay any taxes may result in a lien being placed on the asset and its subsequent sale.

Costs associated with moisture seepage and mold remediation

In general, concerns about indoor mold exposure have been increasing. As a result, there have been a number of lawsuits against property owners and managers related to moisture infiltration and the resulting mold. Mold growth can be attributed to the use of exterior insulation finishing systems. The terms of our property and general liability policy typically exclude certain mold-related claims. In this case, we would have to use our own funds to resolve the issue, including litigation costs. Liabilities arising from moisture infiltration and the presence of or exposure to mold will adversely impact our business, operating results, and financial condition, as well as the Issuer's value.

The costs of complying with environmental laws and other government laws and regulations can negatively affect us

We must comply with various local laws and regulations related to environmental protection and human health and safety. These laws and regulations generally govern wastewater discharges, air emissions, the operation and removal of underground and aboveground storage tanks, the use, storage, treatment, transportation, and disposal of solid and hazardous materials, and the remediation of pollution associated with disposals. We are also required to comply with various local fire, health, safety, and similar regulations. Some of these laws and regulations may impose joint and several liability on owners or operators for the costs of investigating or remediating contaminated properties. These laws and regulations often impose liability regardless of whether the owner or operator knew of or was responsible for the presence of hazardous or toxic substances. The cost of removal or remediation could be substantial. Furthermore, the presence of these substances, or the failure to properly remediate them, may adversely affect our ability to lease units or sell the Shares.

Environmental laws and regulations may also impose restrictions on how we use or operate the asset. These restrictions may require us to incur considerable expenses. Environmental laws and regulations provide for penalties for non-compliance and can be enforced by government agencies or, in certain circumstances, by private individuals. Third parties may seek recovery from property owners or operators for personal injury or property damage associated with exposure to released hazardous substances. Compliance with new or stricter laws or regulations, or stricter interpretations of existing laws, may require material expenditures on our part. For example, various federal, regional, and state laws and regulations have been implemented or are under consideration to mitigate the effects of

climate change caused by greenhouse gas emissions. Among other things, "green" building codes may seek to reduce emissions by imposing standards for design, construction materials, water and energy use and efficiency, and waste management. These requirements could increase the costs of maintaining or improving the asset.

Risks Related to the Underlying Asset

Potential damage to the collateral backing the Underlying Asset could adversely affect the value of the Underlying Asset, the Equity Interests related to the Underlying Asset, or the likelihood of us making distributions to investors.

The collateral of the Underlying Asset may be damaged by causes beyond our reasonable control. Any damage to the collateral of the Underlying Asset could adversely affect the value of the Underlying Asset or increase the Issuer's liabilities or operating expenses. Although we intend for the Underlying Asset to be insured (subject to the terms and conditions of the policy), in the event of claims against such insurance policies, there can be no guarantee that losses or costs will be reimbursed, that the Underlying Asset can be replaced in similar condition, or that the insurance proceeds will be sufficient to pay the full market value (after paying any outstanding liabilities, including, but not limited to, outstanding balances under operating expense reimbursement obligations), if any, of the Units. In the event of damage to the collateral of the Underlying Asset, this will affect the value of the Underlying Asset and, consequently, the Units related to the Underlying Asset, as well as the likelihood of us making distributions to investors.

Guarantee value and recovery risk

In the event of default by the borrower, the Issuer may attempt to recover the amounts owed by enforcing or liquidating the collateral backing the Underlying Asset. However, there is no guarantee that the collateral will retain sufficient value to satisfy the outstanding loan balance against the Underlying Asset, particularly if the collateral has been damaged, impaired, or depreciated. Damage to or impairment of the collateral, whether due to unforeseen events, lack of maintenance, market conditions, or other factors, may materially reduce its recoverable value. As a result, investors may be exposed to losses despite the existence of guaranteed interest.

Limitations of insurance coverage

While the Issuer may obtain credit insurance or other forms of coverage to mitigate the risk of borrower default or non-payment on the Underlying Asset, investors should not assume that such insurance will fully protect against losses. Insurance policies may be subject to coverage limits, exclusions, deductibles, and other conditions that could reduce or delay the amount recovered in the event of a claim.

Furthermore, insurance typically does not cover all potential risks associated with loan defaults, such as decreases in collateral value, enforcement costs, or delays in recovery processes. In certain circumstances, the insurer may dispute or deny a claim, or the insurer itself may face financial difficulties that affect its ability to meet its obligations.

We may be associated with third-party liability and exposed to reputational damage as a result of the wrongful actions of certain third parties.

The Issuer will assume all ownership risks associated with its Underlying Asset, including liability risks to third parties. Therefore, the Issuer may be liable to a third party for any loss or damage incurred in connection with the Underlying Asset. This would constitute a loss for the Issuer and, therefore, be deductible from any income or capital proceeds payable, adversely affecting the Issuer's value and the likelihood of us making distributions.

Risks Related to Potential Conflicts of Interest

Our Operating Agreement contains provisions that reduce or eliminate the Manager's duties (including fiduciary duties).

Our Operating Agreement stipulates that the Manager, in exercising its rights as Manager, shall have the right to consider only the interests and factors it chooses, including its own interests, and shall have no duty or obligation (fiduciary or otherwise) to consider any interest or factor affecting us or any of our investors and shall not be subject to any different standard imposed by our Operating Agreement, the Delaware Limited Liability Companies Act, or any other law, rule, or regulation, or in equity. These modifications of fiduciary duties are expressly permitted by Delaware law.

We do not have a conflict of interest policy.

The Issuer, the Manager, and their affiliates will attempt to balance our interests with their own. However, to the extent that these parties take actions that are more favorable to entities other than the Series RNT MAD-6, these actions could negatively impact our

financial performance and, consequently, distributions to investors and the value of the Units. Neither Rental America nor the Issuer has adopted, nor intends to adopt in the future, a conflict of interest policy or a conflict resolution policy.

There may be conflicts of interest between the Manager and its employees or affiliates.

The Manager will contract, on behalf of the Issuer, with various brokers, distributors, borrowers, insurance companies, maintenance providers, and other service providers, and may therefore receive in-kind discounts, such as free shipping or services. In such circumstances, these in-kind discounts are likely to be retained for the benefit of the Manager rather than the Issuer. The Manager may be incentivized to choose a broker or distributor based on the benefits it receives rather than what is best for the Issuer.

If operating expenses exceed the income from the Underlying Asset, if any, and any cash reserves, the Manager has the option to require the Issuer to incur an operating expense repayment obligation to cover the excess. Since interest may accrue on such a loan, the Manager may be incentivized to require the Issuer to incur an operating expense repayment obligation to pay for operating expenses rather than seeking other sources of income or repaying any outstanding operating expense repayment obligation as soon as possible rather than making distributions to investors. The Manager may also choose to issue additional units to pay for operating expenses instead of requiring the Issuer to incur an operating expense repayment obligation, even if any interest payable by the Issuer on any operating expense repayment obligation may be more economically beneficial to unit holders than the dilution resulting from the issuance of additional units.

There may be conflicting interests between the Manager and the Investors.

The Manager will determine whether or not to liquidate the Underlying Asset if an offer is received to acquire all of it. Since the Manager or its affiliates, once registered as brokers with the SEC, will receive commissions on the trading volume of the units linked to an underlying asset, they may be incentivized not to sell that underlying asset even if investors would prefer to receive the gains from any appreciation in its value. Furthermore, in determining the liquidation of an underlying asset, the Manager will consider all circumstances at the time, which may include obtaining a price for the underlying asset that is in the best interest of a substantial majority, but not all, of investors.

Furthermore, the Operating Agreement seeks to limit the fiduciary duties the Manager owes to its investors. Therefore, the Manager may act in its own interest rather than in the best interest of the investors. See “Securities Offered” for more information.

There may be conflicts between the legal advisor, Rental America and the Issuer.

The Issuer's legal counsel also advises the Manager and its affiliates and may act as counsel with respect to other Series of Shares. Because such legal counsel represents both the Issuer and other parties, certain conflicts of interest exist and may arise. To the extent that an irreconcilable conflict develops between Rental America and any of the other parties, the legal counsel may represent those other parties and not the Issuer. The legal counsel may, in the future, provide services to Rental America or other related parties with respect to activities related to Rental America, as well as other unrelated activities. The legal counsel does not represent any prospective investors of the Issuer in connection with this Offering and will not represent the holders of the Issuer's Shares. Prospective investors are advised to consult their own independent advisor regarding the other legal and tax implications of an investment in the Shares.

Risks Related to this Offer and the Ownership of Our Shares

Transfer restrictions imposed by our Operating Agreement may result in you being unable to sell your Shares.

The Shares are subject to transferability restrictions. A Shareholder may not transfer, assign, or pledge their Shares without the Manager's consent. The Manager may withhold consent at its sole discretion. As a result of these limitations, you may not be able to sell your Shares when you wish, or even at all.

There is currently no public market for our securities.

There is currently no public market for the Shares, and an active market may not develop or be maintained. If an active public market for the Shares is not developed or maintained, it may be difficult or impossible for you to resell your Shares at any price. Even if a public market develops, the market price could fall below the amount you paid for your Shares.

If a market for the Shares ever develops, the market price and trading volume of the Shares may be volatile.

If a market develops for the Shares, the market price of the Shares could fluctuate significantly for many reasons, including reasons unrelated to our performance, the Underlying Asset, or the Issuer, such as industry analyst reports, investor perceptions, or announcements from our competitors regarding their own performance, as well as general economic and industry conditions. For example, to the extent that other companies, large or small, within our industry experience declines in their share prices, the value of the Shares may also decrease.

Furthermore, the failure of operating results to meet investor expectations may adversely affect the price of our securities. Operating results may fluctuate in the future due to a variety of factors that could adversely affect revenues or expenses in any reporting period, including the vulnerability of our business to a general economic downturn; changes in laws affecting our operations; competition; compensation-related expenses; application of accounting standards; seasonality; and our ability to obtain and maintain all government certifications or licenses necessary to operate our business.

There may be state restrictions on an investor's ability to sell the Shares, making it difficult to transfer, sell, or dispose of the Shares.

Each state has its own securities laws, often called "blue sky" laws, which (1) restrict sales of securities to residents of a state unless the securities are registered in that state or qualify for an exemption from registration, and (2) regulate reporting requirements for brokers and stockbrokers who do business directly or indirectly in the state. Before a security can be sold in a state, there must be a current registration to cover the transaction, or it must be exempt from registration. In addition, the broker must be registered in that state. We do not know whether the Shares will be registered or exempt under any state's laws. The determination regarding registration will be made by brokers, if any, who agree to act as market makers for the Shares. There may be significant restrictions under state blue sky laws on the ability of investors to sell, and buyers to purchase, the Shares. Investors should consider that the resale market for the Shares is limited. Investors may not be able to resell their Shares, or they may not be able to resell them without significant expense for state registration or qualification.

Investors lack voting rights and the Manager may take actions that are not in the best interests of the investors.

The Manager has the unilateral ability to amend the Operating Agreement and allocation policy in certain circumstances without investor consent, and investors have only limited voting rights with respect to the Issuer. Therefore, investors will be bound by any amendments the Manager makes (if any) to the Operating Agreement and allocation policy, as well as by any decisions it makes regarding the Issuer, over which investors have no voting rights. Investors may not agree with such amendments or decisions, and these may not be in the best interests of all investors as a whole, but only of a limited number.

Furthermore, the Manager can only be removed as Manager of the Issuer in very limited circumstances, following a final judgment from a competent court that determines that he has committed fraud in relation to the Issuer.

Therefore, investors could not withdraw from the Manager simply because they disagree, for example, with the way the Manager is trading an underlying asset.

This is a fixed-price offering, and the fixed offering price may not accurately reflect the current value of the Issuer or its assets at any given time. Therefore, the price you pay for the Shares may not be backed by the value of the assets at the time of purchase.

This is a fixed-price offering, meaning that the offering price for the Series RNT MAD-6 Shares is fixed and will not vary based on the underlying value of our assets at any time. The Manager has determined the offering price at its sole discretion without the involvement of an investment bank or other third party. The fixed offering price for the Series RNT MAD-6 Shares will be based on our assessment of the value of the assets we hold or may hold, or on the results of any independent third-party valuations we may obtain. However, the fixed offering price set for the Series RNT MAD-6 Shares may not be supported by the current value of the Issuer or its assets at any given time.

Potential changes in federal/local tax laws or in the application of existing federal/local tax laws may result in significant variability in our operating results and in the tax burden for the investor.

The Internal Revenue Code of 1986, as amended, is subject to change by Congress, and its interpretations may be modified or affected by court decisions, by the Department of the Treasury through regulatory changes, and by the Internal Revenue Service through its audit policy, announcements, and public and private resolutions. Although significant changes in tax laws have historically had prospective application, there is no guarantee that any change in tax law affecting an investment in the Issuer will be limited to prospective effects. Accordingly, the ultimate effect on an investor's tax situation may be governed by laws, regulations, or

interpretations of laws or regulations that have not yet been proposed, enacted, or implemented, as the case may be. This analysis also applies to local property tax laws, which are also subject to periodic changes.

Furthermore, investors may reside in various tax jurisdictions worldwide. To the extent that there are changes in tax laws or reporting obligations in any of these jurisdictions, such changes could adversely affect our clients' ability and/or willingness to acquire real estate holdings. Failure to assess or pay the correct amount of tax on a transaction may expose us to claims from the tax authorities.

Reinvestment risk after the completion of initial investments.

If one of the Issuer's initial investments is terminated during the duration of this project (3 years), the Manager shall have the sole and absolute right to reinvest the proceeds of that terminated investment at any time it deems appropriate, at its sole and absolute discretion, without consulting the investors. Although investors are entitled to receive monthly distributions from the available cash flow of the Issuer's ongoing investments, amounts that would otherwise be available for distribution upon the termination of an initial investment may be reinvested by the Manager. There is no guarantee that any reinvestment will be successful, align with the investors' preferences, or generate returns comparable to or exceeding those of the terminated investment. As a result, investors must rely entirely on the Manager's judgment regarding the timing, selection, and structuring of such reinvestments, which may increase the risk of capital loss and affect the amount of future distributions.

Multi-asset structure; investment risks in multiple jurisdictions.

The Issuer is structured as a multi-asset investment vehicle, and the capital raised in this offering will be invested in multiple assets that may be located in different jurisdictions. Each jurisdiction presents unique legal, regulatory, tax, economic, and political risks that may affect the performance, management, and ultimate value of the corresponding asset. Variations in legal systems, the enforcement of property and contractual rights, currency controls, taxation, profit repatriation, and changes in local laws or regulations may adversely affect the Issuer's ability to operate or realize value from its investments. In addition, the performance of one asset may not correlate with that of other assets, and poor performance in one jurisdiction could materially affect overall returns. Investors should be aware that investing through a multi-asset, multi-jurisdictional structure increases complexity and may result in risks that would not be present in a single-asset or single-jurisdiction investment.

Risks Related to Blockchain Technology, the Agnostic Token Network, the RNT MAD-6 RentalTokens Series, and Cryptocurrencies

The potential applicability of existing regulatory regimes governing blockchain technologies, cryptocurrencies, tokens, and token offerings such as the RNT MAD-6 RentalToken Series is not fully developed and therefore remains substantially uncertain in many respects. New regulations or policies may materially affect the utility of the RNT MAD-6 RentalToken Series.

The regulation of tokens (including the RNT MAD-6 Series RentalTokens) and token offerings such as this Offering, cryptocurrencies (such as BTC or ETH), financial intermediaries such as spot cryptocurrency exchanges, and blockchain networks (such as the Agnostic Token Network on which the RNT MAD-6 Series RentalTokens are intended to be issued) is currently underdeveloped and likely to evolve rapidly. Such regulations may vary and conflict across international, federal, state, and local jurisdictions, and the potential enforcement of existing regulations remains subject to significant uncertainty in many respects. Furthermore, various legislative and executive bodies in the United States and other countries may in the future adopt new laws, regulations, guidelines, or other actions (including the adverse application of existing laws and regulations), which could seriously affect the ability to access markets or exchanges on which to trade Series RNT MAD-6 RentalTokens, as well as the structure, rights, value, and transferability of Series RNT MAD-6 RentalTokens. In addition, our failure to comply with any law, rule, or regulation, some of which may not yet exist or may be subject to interpretation and change, could result in a variety of adverse consequences, including civil penalties and fines.

This RNT MAD-6 Series RentalTokens Offering has been designed to comply with securities registration exemptions under U.S. federal law, and securities laws will limit the ability to resell the RNT MAD-6 Series RentalTokens.

This Offering has been structured to qualify for valid registration exemptions under U.S. federal and state securities laws. Investors agree to resell the Series RNT MAD-6 RentalTokens only in compliance with applicable securities laws and the resale restrictions set forth in the subscription agreement and this Memorandum.

Furthermore, no alternative trading system (ATS) or other exchange has currently committed to listing the RNT MAD-6 Series Rental Tokens, and treating the RNT MAD-6 Series Rental Tokens as a security may limit or prevent their listing on certain exchanges in the

future. While we intend to list the RNT MAD-6 Series Rental Tokens on one or more ATSS or other exchanges, there is no guarantee that our attempts to list the RNT MAD-6 Series Rental Tokens on any ATS or exchange will be successful.

The Company does not expect a cybersecurity audit to be conducted on the ReentalToken Smart Contract and ReentalToken holders could suffer losses if the ReentalToken Smart Contract or the digital wallets in which the ReentalTokens are held are hacked.

We do not expect a cybersecurity audit to be conducted on the ReentalToken smart contract. We believe that because all ReentalToken purchasers will be whitelisted and all ReentalToken transactions will be logged, tracked, and reversible, the risk of loss from a potential hack of the ReentalToken smart contract or a digital wallet containing ReentalTokens will be mitigated.

The development and acceptance of blockchain networks, which are part of a new and rapidly evolving industry, as well as blockchain-based assets like BTC and ETH, are subject to a variety of factors that are difficult to assess. A slowdown or halt in the development or acceptance of blockchain networks and blockchain-based assets would have a material adverse effect on the successful development and adoption of the RNT MAD-6 Series RetailTokens.

The adoption and growth of the blockchain industry are subject to a high degree of uncertainty. Factors affecting the continued adoption and further development of the cryptocurrency industry and blockchain networks include, but are not limited to:

- Global growth, or decline, in the adoption and use of BTC or ETH and other blockchain assets, as well as the decline in the use of blockchain technology;
- Governmental and quasi-governmental regulation of BTC or ETH and other blockchain assets and their use, or restrictions on, or regulation of access to and operation of blockchain networks (such as the Agnostic Token Network) or similar systems, including in jurisdictions outside the United States;
- The maintenance and development of the open-source software protocol of the Token NetworkAgnostic;
- Changes in consumer demographics and public tastes and preferences;
- Availability and popularity of other forms or methods of buying and selling goods and services, or trading assets, including new means of using sovereign currencies (such as the US dollar) or existing networks;
- General economic conditions and the regulatory environment related to cryptocurrencies.

The slowdown or halt in the development, general acceptance, adoption, and use of blockchain networks (such as the Token Agnostic Network) and blockchain assets may discourage or delay the acceptance and adoption of the RNT MAD-6 ReentalTokens Series.

Blockchain asset prices are extremely volatile. Fluctuations in digital asset prices could materially and adversely affect our business, and the RNT MAD-6 Series RetailTokens may also be subject to significant price volatility.

The prices of blockchain assets like BTC and ETH have historically been subject to dramatic fluctuations and are highly volatile, and the market price of RNT MAD-6 Series RentalTokens can also be highly volatile. Several factors can influence the market price of RNT MAD-6 Series RentalTokens, including, but not limited to:

- Global blockchain asset offering;
- Global demand for blockchain assets, which may be influenced by the growing acceptance of blockchain assets as cryptocurrencies by retailers and commercial enterprises as payment for goods and services, the security of online blockchain asset exchanges and digital wallets that hold blockchain assets, the perception that the use and holding of blockchain assets is safe, and regulatory restrictions on their use;
- Investor expectations regarding the inflation rate;
- Interest rates;
- Foreign exchange rates, including the rates at which digital assets can be exchanged for fiat currencies;
- Fiat currency withdrawal and deposit policies of exchanges, such as an ATS or other exchange, where fiat currencies can be tradedSeries RNT MAD-6ReentalTokens and liquidity in these exchanges;
- Service interruptions or failures of the exchanges where they can be tradedSeries RNT MAD-6 ReentalTokens;
- Investment and trading activities of large investors, including private and registered funds, that may invest directly or indirectly in theSeries RNT MAD-6ReentalTokens or other blockchain assets;
- Government monetary policies, trade restrictions, currency devaluations and revaluations;
- Regulatory measures, if any, that affect the use of blockchain assets such asSeries RNT MAD-6 ReentalTokens;
- The maintenance and development of the open-source software protocol of the Agnostic Token Network;
- Global or regional political, economic or financial events and situations;

- Expectations among blockchain asset participants that the value of the Series RNT MAD-6 RentalTokens or other blockchain assets will soon change.

A decrease in the price of a single blockchain asset can cause volatility across the entire blockchain asset industry and may affect other blockchain assets, including the RNT MAD-6 Series RealTokens.

Blockchain networks use code that is subject to change at any time. These changes may have unintended consequences for the RNT MAD-6 Series RetailTokens.

The RNT MAD-6 RentalTokens Series are intended to be AGNOSTIC TOKEN tokens built on the Agnostic Token Network blockchain protocol (or similar) modified to comply with transfer restriction requirements under US securities law. Changes, such as updates to the Agnostic Token blockchain, may have unintended adverse effects on all blockchains using AGNOSTIC TOKEN tokens.

Furthermore, the Agnostic Token Network operates on an open-source protocol maintained by contributors, and these contributors are generally not compensated for maintaining and updating the Agnostic Token Network protocol. The lack of guaranteed financial incentives for contributors to maintain or develop the Agnostic Token Network and the lack of guaranteed resources to adequately address emerging issues may reduce the incentive to address problems appropriately and promptly. This could negatively impact the market value or operational status of the RNT MAD-6 RentalTokens Series.

Additionally, Rental America, at its sole discretion, may decide to issue the RNT MAD-6 RentalTokens Series on a blockchain other than Agnostic Token, which may negatively affect an investment in the RNT MAD-6 RentalTokens Series.

There are only a few SEC-registered ATSS currently for trading blockchain-based security tokens; we may not be successful in listing the Series RNT MAD-6 ResidentialTokens on any ATS or, once listed, maintaining such listing; trading through a blockchain-compatible ATS currently offers the only legal way to trade security tokens such as the Series RNT MAD-6 ResidentialTokens.

Currently, only a small number of SEC-registered ATSS have the technological capability to enable the trading of securities tokens, such as the Series RNT MAD-6 Residential Tokens. Because the Series RNT MAD-6 Residential Tokens are intended to be issued as AGNOSTIC TOKEN tokens on the Agnostic Token blockchain, they cannot currently be traded using a conventional securities trading platform such as a national stock exchange (e.g., the New York Stock Exchange). However, since the Series RNT MAD-6 Residential Tokens are securities, they are not permitted to be traded on most spot cryptocurrency exchanges that can handle blockchain assets (e.g., Coinbase), as most of these exchanges are not SEC-registered to offer securities trading. If we are unable to list on an SEC-registered ATS that is capable of handling blockchain tokens, our Series RNT MAD-6 RentalTokens may not be legally permitted to trade in the United States, which could result in a decrease in the value of a Series RNT MAD-6 RentalToken.

Banks and financial institutions may not provide banking services, or may suspend services, to businesses that provide cryptocurrency-related services or that accept cryptocurrencies as payment.

Several companies that provide services related to cryptocurrencies or blockchain tokens (such as the RNT MAD-6 Series RentalTokens) have been unable to find banks or financial institutions willing to provide them with bank accounts and other services. Similarly, several companies and individuals or businesses associated with cryptocurrencies and blockchain tokens may have had, and may continue to have, their existing bank accounts closed or services interrupted by financial institutions. Banks and other established financial institutions may refuse to process funds for cryptocurrency or blockchain token transactions (including the RNT MAD-6 Series RentalToken), process wire transfers to or from cryptocurrency exchanges, companies, or cryptocurrency-related service providers, or maintain accounts for individuals or entities that transact in cryptocurrencies.

Cybersecurity threats could result in misappropriation, hacking, malware infection, or other damage to the RNT MAD-6 Series RentalTokens or the blockchain network on which they are issued, which could negatively impact an investment in the RNT MAD-6 Series RentalTokens.

Security breaches, malware, and hacking attacks have been a prevalent concern since the launch of blockchain networks. Any security breach caused by hacking, which involves attempts to gain unauthorized access to information or systems, or to intentionally cause malfunctions, loss, or corruption of data, software, hardware, or other computer equipment, and accidental or intentional infections by computer viruses, could damage or impair the software behind the RNT MAD-6 RentalTokens Series, which are intended to use the Agnostic Token blockchain, resulting in a loss of functionality, value, possession, or other damages for the holders of such RNT

MAD-6 ReentalTokens Series. Any breach of the software infrastructure supporting the RNT MAD-6 ReentalTokens Series could adversely affect an investment in them.

The security system and operational infrastructure supporting the RNT MAD-6 Series RentalTokens can be compromised for various reasons, including but not limited to actions by third parties, errors or misconduct by an employee or other external service providers, or other reasons. As a result, an unauthorized party may gain access to private keys, data, or the software infrastructure of the RNT MAD-6 Series RentalTokens, or to BTC, ETH, or other cryptocurrencies. Because the techniques used to gain unauthorized access, disable or degrade service, or sabotage systems change frequently, or may be designed to remain dormant until a predetermined event and are often not recognized until launched against a target, we may not be able to anticipate these techniques or implement appropriate preventative measures. If an actual or perceived breach of the security system or operational infrastructure supporting the RNT MAD-6 Series ReentalTokens occurs, some or all of a holder's RNT MAD-6 Series ReentalTokens could be lost, stolen, or destroyed, and the value of an investment in the RNT MAD-6 Series ReentalTokens could be adversely affected.

Loss of private keys can render RNT MAD-6 Series RealTokens useless.

If a private key is lost, destroyed, or compromised, and a backup copy of the private key is unavailable, an investor will not be able to access the blockchain asset associated with the corresponding address. In the event of loss of control over the wallet where the Seriestos RNT LVT 2 tokens are stored, the investor must contact the issuer directly via email at hola@reental.co requesting token reinstatement. ***Smart contracts are subject to limitations.***

Smart contract technology is still in its early stages of development and its application is experimental in nature. This entails significant operational, technological, regulatory, reputational, and financial risks. Smart contracts may not be suitable for the Company's intended purpose and may contain flaws, vulnerabilities, or other issues, which could cause technical problems or the total loss of the RNT MAD-6 Series RealTokens.

Intellectual property rights claims can negatively affect the operation of blockchain networks.

Third parties may file intellectual property claims related to the holding and transfer of blockchain tokens such as RNT MAD-6 Series ReentalTokens, or BTC, ETH, or other cryptocurrencies, and their source code. Regardless of the merits of any intellectual property or other legal action, any threatening action that reduces confidence in the long-term viability of the Agnostic Token Network or RNT MAD-6 Series ReentalTokens, or the ability of holders to hold and transfer Ether or RNT MAD-6 Series ReentalTokens, may adversely affect an investment in RNT MAD-6 Series ReentalTokens, which are intended to use the Agnostic Token blockchain. Furthermore, a valid intellectual property claim could prevent us or our token holders from accessing the Agnostic Token Network or RNT MAD-6 Series ReentalTokens, or from holding or transferring their Ether or RNT MAD-6 Series ReentalTokens. As a result, an intellectual property claim against us or the Agnostic Token Network could adversely affect an investment in the RNT MAD-6 ReentalTokens Series.

Risks Related to Cryptocurrencies and Crypto-Backed Real Estate Tokenization

In the event that the RNT MAD-6 ReentalToken Series Smart Contract does not function as anticipated, remedies may be more limited than in the traditional stock market.

The use of tokenized smart contracts for the transmission of value has developed recently. The reliability of smart contracts has not been tested over a significant period. The risks that could arise as the use of security tokens increases are considerable, including hacking risks, risks of poor programming, risks of lack of clarity, and others. Any failure of the smart contract to operate as expected can result in unintended transactions that cannot be reversed, and holders of the RNT MAD-6 ReentalToken Series may have more limited remedies than those available in the traditional stock market.

Digital asset transfers are controlled only by those who know the unique private cryptographic key associated with the asset. If your private key is lost, destroyed, or compromised, and a backup copy of the private key is unavailable, ReentalToken or you may be unable to access the digital asset associated with that private key. Furthermore, the private key may not be reissued, restored, or resettable. Additionally, to the extent that a third party gains access to a private key, that third party may be able to access the digital asset to which the private key is linked. Moreover, any data security breach that exposes or compromises the security of the private keys used to authorize or validate transaction orders, or that allows any unauthorized person to generate private keys, could result in unauthorized transfers that may be impossible to reverse or remedy. Any loss of private keys associated with digital wallets used to store ReentalTokens or the BTC or ETH used to participate in the Offer could have a material adverse effect on your investment.

The blockchain of Agnostic Token, which will be used for the RentalTokens, is susceptible to mining attacks.

Features of RentalTokens

The shares will be issued in the form of cryptographic digital tokens—Series RNT MAD-6 RentalTokens—which are blockchain-based smart contract tokens that comply with the Agnostic Token protocol standard and have been modified to meet applicable U.S. securities transfer restrictions. These tokens represent membership shares in Series RNT MAD-6, LLC, and are subject to a minimum one-year holding period for U.S. investors under Rule 144 before being eligible for resale, including peer-to-peer transfers facilitated within the Rental platform.

Bills

Reental America LLC will assume the Offering Expenses on behalf of the Issuer, including legal and administrative costs, except for fees incurred by Investors for legal advice or personal consultants. Filing fees for Form D and any required blue-sky filings will also be the responsibility of Rental America LLC. Rental America LLC may delegate certain fundraising and investor coordination activities to its Spanish subsidiary, Rental Token S.L., which operates the investment platform at www.reental.co.

No Performance Fees

Unlike other projects, for Series RNT MAD-6, the Manager will not be entitled to any performance-based (“Carry”) fees. The only fee applicable to this Offering is the 9% subscription fee charged at the time of investment.

Nature of Best Efforts of the Offer

Reental America LLC has not engaged an underwriter for the Offering. No party has made a firm commitment to buy or sell any of the Series RNT MAD-6 Shares. As a “best efforts” offering, Rental America LLC, acting as Manager of Series RNT MAD-6, LLC, cannot assure prospective Investors that it will sell all or any of the Series RNT MAD-6 Shares. Investors are not entitled to a refund of their subscriptions unless the Manager declines the subscription or a Closing does not occur. There is no minimum capital threshold for the Offering, and the Issuer may use the funds received immediately as described in this Memorandum.

Regulatory Framework

Reental America LLC, as Manager, distributes this Memorandum and manages the Series RNT MAD-6 Share Offering in the United States pursuant to Rule 506(c) of Regulation D under the Securities Act. Accordingly, the general solicitation and advertising may be used in connection with the sale of the Series RNT MAD-6 Shares. All U.S. Investors must be “accredited investors” and must provide documentation to verify this status. Rental America LLC will take reasonable steps to verify such accreditation and may request financial statements or other supporting materials. The documentation may be retained, reviewed, and shared with Rental America affiliates as necessary. In the case of equity-based verification, a credit check may be required to assess liabilities.

Reental America LLC also manages the Offering to potential Investors located outside the United States under Regulation S. These Investors must certify that they are not “U.S. Persons”, that they are participating in an offshore transaction, and that they are acquiring the Series RNT MAD-6 Shares for their own account and not with the intention of distributing or reselling them.

Affiliate Participation

Officers, directors, and affiliates of Rental America LLC may invest in this Offering and acquire Series RNT MAD-6 Shares on the same terms as other Investors.

Investor Suitability Standards

Only individuals with adequate financial resources who do not require immediate liquidity for this investment should consider acquiring the offered RNT MAD-6 Series Shares, because:

- (i) an investment in the RNT MAD-6 Series Participations involves a series of significant risks (see “Risk Factors”);
- (ii) There is no public market for the RNT MAD-6 Series Shares and one is not expected to develop in the foreseeable future. While peer-to-peer transfers and token-based collateralization mechanisms may be facilitated within the Reental platform, such features are not guaranteed and may be subject to restrictions (p. 2).

This Offering is intended to be a private offering exempt from registration under the Securities Act and applicable state and foreign securities laws.

USE OF FUNDS BY THE ISSUER

It is estimated that the gross proceeds from this Offer will amount to approximately €439,600, assuming full subscription of the maximum Offer amount. These funds will be applied as follows:

Uses	Amount in US dollars	Percentage of gross cash income
Net investment in underlying assets	400,000 €	91%
Subscription fee	39,600 €	9.0%
Fees and total expenses	39,600 €	9.0%
Total revenue	439,600 €	100%

It is estimated that the gross proceeds from this Offer will amount to approximately **439.600 €**, assuming the full subscription of the maximum amount offered, corresponding to the issuance of 4,396 tokens at a unit price of €100.

Of the total amount raised, an amount equivalent to **9% of gross revenue** (approximately €39,600) will be paid by the LLC to Reental America LLC as an upfront fee (“Upfront Fee”), in consideration for the services of structuring, tokenization, launch, operational management, administration and coordination of the project.

Therefore, the estimated net proceeds from the Offer amount to approximately **400.000 €**, which will be used exclusively for investment in the MAD-6 real estate project, located in **Plaza Buenavista 8, in Navalcarnero**.

The project includes the following main actions:

- the acquisition of the real estate asset;
- the execution of the transformation project (including change of use, construction and adaptation);
- the administrative and technical management necessary for its development;
- professional fees (architecture, engineering and participating technicians);
- licenses, municipal fees and associated administrative expenses;
- purchase and sale expenses and applicable taxes; and
- costs necessary to position the asset in conditions for marketing and transfer.

All capital raised will be tied to a single, clearly identified real estate transaction. The funds will not be allocated to a diversified investment portfolio, multiple projects, jurisdictions, or strategies, nor will they be subject to discretionary reinvestment by the Manager.

The investment is implemented through a **Profit-Sharing Participation Agreements** signed with the project's promoting company, **INVERIN, S.L.**, which acts as the Operating Entity.

By virtue of this structure:

- The issuer contributes capital to the project;
- INVERIN, S.L. acquires and develops the real estate asset;
- The Issuer participates in the economic results of the project;
- There is no loan, no credit rights, and no accrual of interest.

Strategic Return Agreement (SRA)

The investment has been structured under a return-to-maturity model, with no periodic distributions planned during the life of the project.

The expected return for investors is configured as **atarget return**, linked to the economic outcome of the real estate project.

In estimated scenarios, target returns may fall within approximate ranges of:

- Rental: 11% anual
- Rental Pro: 13% anual
- SuperRental: 16% anual

These differences reflect the internal commission policies and economic conditions applicable to each investor category within the Rental ecosystem.

Consequently:

- There will be no periodic distributions during the life of the project;
- The distribution of capital and results will be made at the closing of the operation;
- The final profitability will depend on the effective execution of the project and the exit strategy;
- There is no guarantee of recovery of capital or of the estimated profitability.

The use of the following is not planned:

- debt financing structures;
- loan agreements or credit instruments;
- share of recurring revenues from the asset;
- Automatic reinvestment of cash flows;
- collateralization or liquidity tools within the rental ecosystem.

The investment is strictly limited to the described project, which consists of the acquisition, transformation and enhancement of the real estate asset, with the objective of its subsequent transfer.

BUSINESS DESCRIPTION

Series RNT MAD-6, LLC (the “Issuer”) is a specific investment vehicle, incorporated as a Limited Liability Company (LLC) in the State of Florida and managed by Rental America LLC.

The Issuer has been established for the sole purpose of channeling capital towards a specific real estate transaction located in Madrid (Spain), in the Navalcarnero area, through a clearly defined and contractually delimited financing structure.

One hundred percent (100%) of the capital raised, after deducting the expenses of the Offer, will be allocated to the financing of the MAD-6 project, consisting of the acquisition, transformation and valorization of the real estate asset, in accordance with the terms described in this Memorandum.

The RentalTokens issued under this Offering represent fractional shares in Series RNT MAD-6, LLC and confer upon their holders indirect economic rights to the proceeds from the commercial loan granted by the Issuer. These tokens do not confer direct ownership of the real estate asset or the underlying assets, nor voting rights, except to the extent expressly provided in the Operating Agreement.

Strategic Purpose

Series RNT MAD-6, LLC (the “Issuer”) is a specific investment vehicle, incorporated as a Limited Liability Company (LLC) in the State of Florida and managed by Rental America LLC.

The Issuer has been established with the sole purpose of channeling capital towards a specific real estate operation located at Plaza Buenavista 8, in Navalcarnero, through a clearly defined and contractually delimited investment structure.

One hundred percent (100%) of the capital raised, after deducting the expenses of the Offer, will be allocated to the investment in the MAD-6 project, consisting of the acquisition, transformation and valorization of the real estate asset, in accordance with the terms described in this Memorandum.

The RentalTokens issued under this Offering represent fractional shares in Series RNT MAD-6, LLC and confer upon their holders indirect economic rights over the results of the real estate project.

These tokens do not grant direct ownership of the real estate asset or the underlying assets, nor voting rights, except to the extent expressly provided in the Operating Agreement.

The present investment structure aims to facilitate the indirect participation of Investors in the development of a clearly identified real estate project, through a model of economic participation in its results.

The investment is strictly limited to the project described in this Memorandum, which consists of the acquisition, transformation and enhancement of a real estate asset, with the objective of its subsequent transfer within the estimated timeframe of the project.

This operation seeks to channel capital efficiently towards a specific real estate opportunity, through a clear and legally defined financial architecture, aligning the interests of the Investors with the execution and economic result of the project, without implying the acquisition of direct rights over the underlying asset.

Project value proposition

The main appeal of the project lies in the combination of several factors that contribute to its market positioning:

- **Change of use already structured:**The project has an advanced level of technical and administrative development, including a defined project and initiated execution, which significantly reduces urban planning risk.
- **Asset optimization:**This is a conversion that allows transforming an underutilized asset into a residential product adapted to current demand, generating value through design, distribution and repositioning.
- **Incorporation of common areas:**The integration of shared spaces such as a gym, storage rooms and laundry facilities improves the commercial proposition and differentiates the asset from the traditional offering.
- **Established location:**Navalcarnero is an area with stable residential demand, especially for functional housing types geared towards primary residence or investment.

Project implementation status

The project is currently in the execution phase, with work having begun after obtaining the necessary licenses and approvals.

This level of progress implies that some of the initial risks associated with the design, urban planning and technical feasibility phases have already been mitigated, placing the investment in a more advanced phase of the real estate cycle.

The ongoing execution also allows for greater visibility into the project's timelines and costs, reducing uncertainty regarding its development.

Value creation strategy

The project strategy is based on generating value through:

- the acquisition of an asset with transformation potential;
- its adaptation to residential use through change of use and execution of work;
- the optimization of the final product in terms of design, functionality and positioning;
- and its subsequent marketing in the residential market.

The objective is to capture the difference between the total cost of the project and the market value of the resulting units once completed, generating a positive economic result that will be distributed according to the established participation scheme.

The resulting product of the project is positioned as a functional, modern residential offering adapted to the current needs of the market, both for end users and investors.

The combination of efficient typologies, location and common services allows for improved liquidity of the asset at the time of sale, facilitating the project's exit strategy.

Economic Model

The investment in Series RNT MAD-6 is structured under a return-to-maturity model, with an estimated duration of twelve (12) months.

Under this structure:

- Periodic distributions are not planned during the life of the investment;
- The distribution of capital and results will be carried out at the close of the project;
- Profitability for investors is configured as **target return**, linked to the economic outcome of the real estate project.

Since the investment is structured through a **Joint Venture Agreement** There is no loan or accrual of interest, and profitability will depend exclusively on the execution of the project and its subsequent divestment.

** The differences in estimated returns between Investor categories stem solely from the varying commission levels applicable based on the Investor's status within the Reental ecosystem. The underlying transaction, the Loan Agreement terms, the existence of a corporate guarantee, and the maturity date are identical for all Investors. Variations in returns are solely due to the platform's internal fee and profit structure and do not imply any differences in the financed asset or the Investor's legal standing with respect to the Issuer.*

The Issuer will allocate the funds raised exclusively to:

The Issuer will allocate the funds raised exclusively to:

- the investment in the real estate project located in **Plaza Buenavista 8, in Navalcarnero**, through the formalization of a **Profit-Sharing Participation Agreement** with the project's promoting company, **INVERIN, S.L.**, responsible for the acquisition and execution of the asset;
- the acquisition of the real estate asset;
- the execution of the transformation project (including change of use, construction and adaptation);
- professional fees, licenses and associated administrative costs;
- the costs directly linked to the development and execution of the project;
- the establishment of reasonable operating reserves for the management of the Issuer.

The funds will not be used for the acquisition of other assets, the financing of different projects, diversification strategies, token buybacks, or operations outside the scope of real estate investment described in this Memorandum.

Profitability and investment scenarios

The return on investment will depend on the effective execution of the project and market conditions at the time of divestment. To illustrate different possible outcomes, three reference scenarios have been defined: unfavorable, expected, and optimal.

These scenarios are based on different assumptions regarding sales prices, execution costs (CAPEX) and the project development timeframe, and are directly linked to the results distribution scheme (waterfall) described in this Memorandum.

1. Unfavorable scenario

The unfavorable scenario envisions a less favorable evolution of the project, characterized by:

- a reduction in the selling price of the units (up to approximately -10% compared to the base scenario);
- an increase in execution costs (CAPEX);
- and/or a possible extension of the execution period.

Under these assumptions, the estimated result of the project would be around **171.026 €**.

In this context, the estimated return for investors could be around:

- **SuperReentel:** 13.21% annually
- **Reental Pro:** 10.21% annually
- **Reental:** 9.21% annually

In this scenario, profitability would be negatively affected compared to the baseline scenario and, in more adverse situations, could imply a partial recovery of the invested capital.

2. Expected scenario (baseline)

The expected scenario reflects the central hypothesis of the business plan, based on:

- sale prices aligned with the current market (around €2,500/m²);
- execution costs controlled according to budget;
- and compliance with the estimated implementation schedule.

Under these conditions, the estimated result of the project is around **380.668 €**.

In this scenario, the estimated target returns for Investors would be:

- **SuperReentel:** 16.00% annually
- **Reental Pro:** 13.00% annually
- **Reental:** 11.00% annually

These returns are aligned with the project's target scenario and are derived from the application of the established results distribution scheme.

3. Optimal scenario

The optimal scenario envisions a favorable evolution of the project, characterized by:

- an improvement in selling prices (up to approximately +5%);
- an optimization of execution costs;
- and efficient execution within the planned timeframe.

Under these assumptions, the estimated result of the project could reach approximately **504.443 €**.

In this context, the estimated return for investors could be around:

- **SuperReentel:**17.33% annually
- **Reental Pro:**14.33% annually
- **Reental:**12.33% annually

In this scenario, investors participate in the excess profitability generated by the project according to the distribution mechanism (waterfall), benefiting from the potential for additional revaluation.

General considerations

The scenarios described are for illustrative purposes only and are based on estimates subject to uncertainty.

Effective profitability will depend on multiple factors, including:

- the evolution of the real estate market;
- the correct execution of the project;
- cost control;
- and the asset's marketing conditions.

Under no circumstances do the scenarios described constitute a guarantee of result or recovery of invested capital.

The generation of profitability will occur, if applicable, at the close of the project, with no periodic distributions planned during the life of the investment.

Governance and Reporting

Rental America LLC acts as Series Manager and is responsible for the operational, legal, and financial administration of Series RNT MAD-6, LLC. All agreements are formalized directly between the Issuer and the underlying project entities, with the corresponding oversight, monitoring, and reporting obligations.

Investors will receive monthly reports detailing capital allocation, distributions made, and overall Series performance.

Regulatory Compliance

This Offering is made pursuant to the exemptions provided in Rule 506(c) of Regulation D of the U.S. Securities Act for accredited investors and Regulation S for non-U.S. persons. Tokens sold to U.S. investors will be subject to a twelve (12) month transfer restriction, in accordance with SEC requirements.

Our Manager

The Operating Agreement designates Rental America LLC as the Manager of Series RNT MAD-6. The Manager oversees, among other functions, the onboarding of investors, regulatory compliance, the execution of investment agreements, and the administrative management of the Issuer.

Should the Manager decide to submit a particular matter to a vote by the Unit Holders, they will generally not be entitled to participate in that vote. The Manager does not hold any rights of distribution, redemption, conversion, or liquidation simply by virtue of holding the position of Manager.

Operating Expenses

From the initial closing, the Issuer will be responsible for the following Operating Expenses:

- Fees, costs and current expenses incurred in connection with the management and administration of the Issuer and its investments, including applicable taxes, compliance, reporting, valuation and monitoring costs.
- Fees, costs and expenses incurred in the preparation of the Issuer's reports and accounts, including regulatory filings and audits, if applicable.
- Fees, costs and expenses of any registrar, transfer agent or service provider contracted for the Issuer.
- Fees, costs and expenses incurred in connection with the filing of tax returns on behalf of the Issuer.
- Any compensation payments under the Operating Agreement.
- Any insurance premiums or other similar protection expenses that the Manager deems necessary.
- Any other reasonable expenses that the Manager determines as Operating Expenses.

The Manager has agreed to assume its own ordinary overhead costs, including rent, supplies, office costs, salaries, and utilities, and will only charge costs directly attributable to the Issuer. If Operating Expenses exceed income or available reserves, the Manager may advance funds to cover such expenses, which will be recorded as repayable obligations of the Issuer.

Limits of Liability; Compensation to the Manager

The Operating Agreement stipulates that neither the Manager nor any of its affiliates, directors, officers, employees, agents, or contractors (“Indemnified Parties”) shall be liable to the Issuer or any Holder of units for any acts or omissions committed in connection with the Issuer’s business, except when a court of competent jurisdiction definitively determines that they constitute fraud, willful misconduct, or gross negligence. Each Series shall indemnify the Indemnified Parties from its assets for liabilities and losses (including judgments, settlements, legal fees, and related expenses) arising from its role, except in cases of fraud, willful misconduct, or gross negligence.

Management Committees

The Manager will not be entitled to receive or acquire RNT MAD-6 Series RentalTokens in connection with its role as Manager. However, the Manager will receive a Subscription Fee equivalent to 9% of the total Offering amount, which will be charged directly to Investors upon subscription. This fee covers legal structuring, operational oversight, coordination, and investor onboarding services.

No Performance Commission (Carry)

For the RNT MAD-6 Series, the Manager will not receive any performance-based fees (“Carry”). All Investors participate under the same contractual framework and financial conditions, without loyalty bonuses or performance fees.

Asset Liquidity

Security Token Liquidity Benefits

Fractional property: Digital tokenization of fractional ownership of individual assets allows the Issuer to offer securities at lower unit prices, enabling greater participation from a broader investor base.

Greater access to liquidity: The use of programmable values for RentalTokens reduces frictions associated with market liquidity. Through smart contracts, security tokens like RentalToken offer greater efficiency in transfers and in managing the legal and tax obligations typical of this type of investment.

Access to Alternative Trading Systems (ATS): RentalToken plans to list the Issuer's RentalTokens on SEC-regulated exchanges or ATSs in the future. This will provide holders with a compliant mechanism to transfer RentalTokens outside of the RentalToken website, without relying on asset settlement or peer-to-peer exchanges.

Faster transaction settlement: RentalTokens utilize a simplified compliance process that facilitates onboarding and encodes investor eligibility via smart contracts. This enables near-instant settlement in secondary transactions once the securities restriction periods have expired and offers a less burdensome experience for approved investors.

The Manager

The Issuer operates under the direction of the Manager, who is responsible for directing our business operations, managing day-to-day affairs, and implementing our investment strategy. The Manager has established a Board of Directors that will make decisions regarding all asset acquisitions and disposals, as well as maintenance schedules. The Manager is responsible for determining the maintenance required to preserve or enhance asset quality, defining how to monetize the underlying assets to generate profits, and evaluating potential sell offers, which may involve the liquidation of the underlying asset or other Series, as appropriate.

The Issuer will follow the guidelines adopted by the Manager and implement the policies established in the Operating Agreement, unless modified by the Manager. The Manager may establish additional policies in writing and will monitor our administrative procedures, investment operations, and results to ensure compliance. The Manager may modify our objectives at any time without the approval of the unit holders. The Manager has no operational track record and relies on the experience of its directors, board members, and individual advisors.

The Manager performs its functions and responsibilities in accordance with the Operating Agreement. The Manager maintains a contractual, not fiduciary, relationship with us and our unit holders. VALUES OFFERED

The following is a summary of the Issuer's principal terms and is subject to the provisions of the Operating Agreement, attached as Annex A, and the RNT MAD-6 Series Subscription Agreement, attached as Annex B, relating to the purchase of RNT MAD-6 Series RentalTokens. This summary is entirely subject to the detailed provisions of those agreements, which should be reviewed in their entirety by each prospective investor. In the event of any discrepancy between the provisions of this summary and those of the Operating Agreement or the Subscription Agreement (as applicable), the provisions of the Operating Agreement or the Subscription Agreement (as applicable) shall prevail.

Capitalized terms used in this summary that are not defined herein shall have the meaning ascribed to them in the Operating Agreement.

Description of the shares

All units offered under this Memorandum will be duly authorized and validly issued. Upon full payment of the consideration for the units, as determined by the Manager, the Unit Holders will not be liable to the Issuer for any further capital contributions (except for the repayment of distributions in certain circumstances as required). Unit Holders have no conversion, exchange, sinking fund, redemption, or valuation rights, nor any preferential subscription rights to any Interest or preferential distribution rights.

In general, the Holders of Participation (which may include Reental America affiliates) will participate exclusively in 100% of the Free Cash Flow available from the Underlying Asset (as described in “-Distribution Rights” below). Reental America affiliates may acquire ReentalToken participations in the Offering at the same price as all other investors. Reental America affiliates may sell their participations acquired in the Offering at any time after the final closing of the Offering.

An investor in this Offering will acquire an interest in the Issuer and not, for the avoidance of doubt, in (i) Reental America, (ii) any other Series of Interest other than that of the Issuer, (iii) the Manager, (iv) the ReentalToken Website, or (v) the Underlying Asset or any underlying asset owned by any other Series of Interest. Although our ReentalTokens will not be immediately listed on a stock exchange or alternative trading facility (“ATS”) and a liquid market for ReentalTokens cannot be guaranteed, we plan to create our own trading platform or partner with an existing website to enable trading of ReentalTokens (please review the additional liquidity-related risks in the “Risk Factors” section) (p. 1).

Additional Issuance of Shares

The shares are being offered and sold only pursuant to this Memorandum. The Operating Agreement stipulates that Rental America may issue a maximum of 10,000 shares to no more than 10,000 purchasers (of which no more than 500 may be non-accredited investors). The Manager has the option to issue additional shares (beyond those issued in connection with this Offering) on the same terms as the shares offered herein, as necessary to cover any Operating Expenses that exceed the income generated by the Underlying Asset.

Distribution Rights

The Manager has sole discretion to determine what distributions of Free Cash Flow, if any, are made to Interest Holders, unless otherwise provided by law or the Operating Agreement.

Any Free Cash Flow generated by the Issuer from the ownership and lease of the Underlying Asset shall be applied, with respect to the Issuer, in the following order of priority:

- pay any outstanding amount under the Operating Expense Reimbursement Obligation plus accrued interest;
- subsequently, create the reserves that the Manager deems necessary, at its sole discretion, to cover future Operating Expenses; and
- subsequently, 100% (net of corporate income taxes applicable to the Issuer) through distribution to the Interest Holders, which may include affiliates of Rental America.

The income generated from the Underlying Asset, net of the 8% commission payable to the Manager and other Operating Expenses, will be distributed as a dividend to be declared and paid to those who are Registered Holders of RentalToken on the declaration date. The Manager reserves the right to change the timing of these distributions at its sole discretion.

Without redemption provisions

Interest is not redeemable.

No registration fees

There are no registration rights regarding the shares.

Limited voting rights

The Manager is not obligated to hold an annual meeting of the unit holders. The Operating Agreement stipulates that meetings of the unit holders may be convened by the Manager, and a Manager designee will act as chair at such meetings. Unit holders do not have voting rights as such in the Issuer, except with respect to:

- the dissolution of the Issuer following the removal of the Manager for just cause; and
- an amendment to the Operating Agreement that grants any person the right to dissolve the Issuer.

When entitled to vote on a matter proposed by the Manager, each shareholder shall be entitled to one vote for each share he or she holds on all matters submitted to a vote of the shareholders of an applicable Series, as appropriate.

The consent of the holders of a majority of the shares is required for any amendment to the Operating Agreement that adversely changes the rights of the Issuer, results in mergers, consolidations or conversions of the Issuer and for any other matter that the Manager, in its sole discretion, determines requires the approval of the Shareholders voting as a separate class.

Rental America affiliates (if they hold shares in the Issuer) may vote as shareholders on any matter submitted to shareholders. The submission of any action by the Issuer for a shareholder vote must be approved in advance by the Manager, and no amendment to the Operating Agreement may be made without the Manager's prior approval if such amendment diminishes the Manager's rights or increases its obligations.

The Manager has broad authority to act with respect to the Issuer. Except as provided above, the Manager may amend the Operating Agreement without the approval of the unit holders to, among other things, reflect:

- the merger of the Issuer, or the transfer of all assets to a newly created entity if the sole purpose is a mere change of legal form to another limited liability entity;

- a change that the Manager determines is necessary or appropriate to implement any state or federal statute, rule, guidance, or opinion;
- a change that the Manager determines is necessary, desirable or appropriate to facilitate the negotiation of interests;
- a change that the Manager determines is necessary or appropriate for the Issuer to qualify as a limited liability company under the laws of any state or for U.S. federal tax purposes;
- an amendment that the Manager determines, based on legal advice, is necessary or appropriate to prevent Rental America, the Manager, or officers, agents, or trustees from being subject to the provisions of the Investment Companies Act, the Investment Advisers Act, or “plan asset” regulations adopted under ERISA, whether or not they are substantially similar to those currently applied or proposed;
- any amendment that the Manager determines is necessary or appropriate for the authorization, establishment, creation, or issuance of any Series additional;
- an amendment made, required or contemplated by a merger agreement approved pursuant to the terms of the Operating Agreement;
- any amendment that the Manager determines is necessary or appropriate for the formation by the Issuer of, or its investment in, any corporation, partnership or other entity, as permitted by the Operating Agreement;
- a change in the fiscal year or taxable fiscal year and related changes; and
- any other amendment that the Manager deems necessary or appropriate to enable it to exercise its authority under the Agreement.

In each case, the Manager may make such amendments to the Operating Agreement provided that it determines that:

- do not adversely affect interest holders (including any Series particular interests compared to others Series) in a material way;
- are necessary or appropriate to comply with any requirement, condition, or guideline contained in any opinion, directive, order, resolution, or regulation of any federal or state agency or judicial authority, or contained in any federal or state statute;
- are necessary or appropriate to facilitate the trading of interests or to comply with any rule, regulation, guideline or requirement of any stock exchange on which the interests may be listed for trading, compliance with which the Manager considers to be in the best interests of the Issuer and the interest holders;
- are necessary or appropriate for any action taken by the Manager relating to divisions or combinations of interests under the provisions of the Operating Agreement; or
- are required to give effect to the intent expressed in this Memorandum or in the provisions of the Operating Agreement or are contemplated by the Operating Agreement.

Furthermore, the Manager retains sole discretion to create and establish the terms of any new Series and will have the exclusive power to acquire, manage, and dispose of the underlying assets.

Rights of dissolution and liquidation

In the event of the Issuer's dissolution, any remaining assets may be sold, which could result in a taxable gain for the Issuer. Distributions of cash or assets from the Issuer upon its complete liquidation will generally be treated first as a return of capital and subsequently as a capital gain, up to the amount of cash distributed. Generally, upon the Issuer's liquidation or termination, the holder of shares will recognize income to the extent that the distributed amounts exceed their adjusted tax base on their Tokens at the time of distribution.

Restrictions on the transfer

The units are subject to transferability restrictions. A unit holder may not transfer, assign, or pledge their units without the Manager's consent, which the Manager may withhold at its sole discretion, including when it determines that such transfer, assignment, or pledge would result in (a) more than 2,000 beneficial owners of the Issuer or more than 500 beneficial owners who are not "accredited investors," (b) the Issuer's assets being considered "plan assets" for ERISA purposes, (c) a change in the federal tax treatment of Rental America and the Issuer, or (d) Rental America, the Issuer, or the Manager becoming

subject to additional regulatory requirements. The transferring unit holder is responsible for all costs and expenses related to any proposed transfer (regardless of whether the sale is completed), including legal fees of the Issuer or any broker or agent, any costs or expenses related to any legal opinion, and any transfer tax and filing fees.

Additionally, except and until the shares are listed or quoted for trading, there are restrictions on the holder's ability to pledge or transfer the shares. There is no guarantee that the shares will be registered for resale. Therefore, holders may be required to hold their shares indefinitely. Please refer to the Subscription Agreement (Appendix C) for further information regarding these restrictions. The ReentalToken Series RNT MAD-6 smart contracts issued under this Offering to evidencing the Interests will include a statement setting forth these transfer restrictions and any statement required by national or foreign securities laws.

Agreement to join the Operating Agreement; Legal power

By acquiring shares, the investor will be admitted as a member of Reental America and will be bound by the provisions of the Operating Agreement, becoming a party to it. Pursuant to the Operating Agreement, each investor grants the Manager the power to, among other things, execute and file documents required for the qualification, continuation, or dissolution of Reental America. The power also grants the Manager the authority to make certain amendments and execute and deliver other documents that are necessary or appropriate to fulfill the provisions or purposes of the Operating Agreement.

Duties of managers

The Operating Agreement stipulates that, unless otherwise specified, the Issuer's assets, affairs, and business will be managed under the direction of the Manager. The Manager has the power to appoint the directors, who will have the authority, exercise the powers, and perform the duties specified in the Operating Agreement or as otherwise determined by the Manager.

Books and reports

The Issuer shall maintain appropriate business records at its principal offices. These records shall be maintained for tax and financial reporting purposes in a manner that permits the preparation of financial statements in accordance with GAAP. For financial and tax reporting purposes, the fiscal year and tax year shall be the calendar year, unless the Manager determines otherwise in accordance with the Internal Revenue Code.

The RNT MAD-6 Series will elect and qualify, and the Company intends that each future Series will elect and qualify, to be taxed as a corporation under the Internal Revenue Code of 1986.

Annual and semi-annual financial reports and periodic updates will be provided electronically through the ReentalToken website. When documents and updates become available, shareholders will be notified by email or message through the ReentalToken website, including instructions for accessing the updates and documents. If the email notification is returned as "undeliverable," the shareholder will be contacted to obtain an updated email address. Paper or email copies will be provided upon request. The content of the ReentalToken website is not incorporated by reference into, nor forms part of, this Memorandum.

The documentation will be available separately using IPFS. IPFS provides a content-addressed block storage model with content-addressed hyperlinks. Through IPFS, all necessary documents proving real estate ownership by ReentalToken stakeholders will be accessible on the Agnostic Token blockchain via the internet at any time, by anyone, from anywhere. Reental America expects to implement an IPFS system for documenting the Issuer's investments in the future. Details regarding this process will be provided to stakeholders.

Exclusive jurisdiction

Any dispute relating to the Operating Agreement is subject to the exclusive jurisdiction of the courts of the State of Florida, and each investor undertakes and agrees not to file any claim elsewhere. If a unit holder files a claim against Series RNT MAD-6, LLC or Rental America LLC as Manager, it must be filed in the competent courts of Florida.

Series RNT MAD-6 ReentalTokens

In this Offering, the shares will be issued in the form of ReentalTokens, and the Series ReentalTokens will be issued as Series RNT MAD-6 ReentalTokens. The terms of the Series RNT MAD-6 ReentalTokens are derived from the Smart Contracts and the Operating Agreement of Series RNT MAD-6, LLC.

The Series shares will be issued in the form of electronic and digital tokens, which are effectively membership shares in a digital limited liability company. The RNT MAD-6 Series ReentalTokens will be issued as Agnostic Token-based smart contracts on the Agnostic Token Blockchain. The RNT MAD-6 Series ReentalTokens will be a new series of Agnostic Token-based smart contract digital tokens that comply with the AGNOSTIC TOKEN protocol standard, modified to meet transfer restriction requirements under applicable U.S. securities legislation. While it is currently proposed that the RNT MAD-6 Series ReentalTokens utilize the Agnostic Token Blockchain, we reserve the right, at our sole discretion, to issue the RNT MAD-6 Series ReentalTokens on another blockchain network under a different, non-ERC smart token protocol.

As of the date of this Memorandum, no Series RNT MAD-6 ReentalTokens have been issued. Following the completion of this Offering, it is expected that 10,000 Series RNT MAD-6 ReentalTokens will be issued and in circulation, representing the same number of shares. Because Series RNT MAD-6 ReentalTokens are digital representations of our shares, the rights of holders of our Series RNT MAD-6 ReentalTokens derive from two sources: (i) the Series RNT MAD-6, LLC Operating Agreement, which sets forth the terms of the shares, whether held in token form or not, and (ii) the AGNOSTIC TOKEN Smart Contract, modified to comply with transfer restriction requirements under applicable U.S. securities law, which sets forth the terms under which holders of Series RNT MAD-6 ReentalTokens will hold the tokens. There is no substantive difference between the rights of shares held as RNT MAD-6 Series ReentalTokens and the rights of shares held directly. Except for specifying the form of ownership and transfer of RNT MAD-6 Series ReentalTokens, the smart contract does not confer any rights or restrictions on token holders that differ from those of investors who do not hold shares in token form.

Each RentalToken of the RNT MAD-6 Series grants the holder the same rights as a holder of a share, that is:

- The limited right to one vote at a meeting of the Members of the Series RNT MAD-6, LLC as described in the Operating Agreement;
- The right to an equal share of any dividend paid by the Issuer; and
- The right to an equal share in the distribution of surplus assets of the Series RNT MAD-6, LLC in its liquidation.

ReentalTokens of the RNT MAD-6 Series will be delivered to Digital Wallet addresses on the Agnostic Token Blockchain and will be governed by RentalToken Smart Contracts. Rental America LLC does not control the Agnostic Token Blockchain or Investors' Digital Wallets.

The RentalToken smart contract protocol, or code, is based on the AGNOSTIC TOKEN standard, modified to comply with transfer restriction requirements under applicable U.S. securities legislation and to limit the ability of Digital Wallet holders to transfer or modify the number of RentalTokens of the RNT MAD-6 Series within a Digital Wallet. The proprietary smart contract code, which will not be made public at this time, was created under the AGNOSTIC TOKEN protocol, modified to comply with applicable securities laws governing the transfer and sale of securities.

The ownership of shares registered by the RentalToken smart contracts can only be modified by Series RNT MAD-6, LLC. Investors who have lost access to their Series RNT MAD-6 ReentalTokens (for various reasons) may cancel and reissue their tokens after providing Series RNT MAD-6 with a notarized affidavit explaining the loss and providing a new Agnostic Token Digital Wallet address (if required).

The Issuer will make public the amount of securities issued on the Agnostic Token Blockchain.

No cybersecurity audit of the RentalToken smart contract is planned. It is believed that, because all RentalToken purchasers will be whitelisted and all RentalToken transactions will be logged, tracked, and reversible, the risk of loss due to a potential hack of a smart contract or digital wallet will be mitigated.

Since the RentalTokens of the RNT MAD-6 Series represent shares, there is no built-in limitation in the smart contracts on the number of tokens that can be created. The total number of RentalTokens of the RNT MAD-6 Series will be governed by the Operating Agreement and Florida limited liability company law.

Initially, under the terms of the RentalToken smart contracts, a single RentalToken of the RNT MAD-6 Series cannot be divided into fractions. However, the Issuer may in the future allow the fractionation of tokens up to ten (10) decimal places.

Our RentalToken smart contract architecture consists of three components: an underlying asset contract, a value token contract, and a KYC/AML registry. A detailed discussion of this RentalToken smart contract framework is provided in the attached Appendix B.

List

The shares, represented by the RNT MAD-6 Series RentalTokens, are restricted securities and are not currently listed or quoted for trading on any national stock exchange, ATS or national quotation system.

We intend to list the RNT MAD-6 Series ReentalTokens in the future on one or more ATSS or other exchanges registered with the SEC to trade unregistered securities and that have the technological capacity to handle security token trading. If the RNT MAD-6 Series ReentalTokens are listed on any such exchange, one or more of our affiliates (or other parties) may engage in market-making activities with respect to the RNT MAD-6 Series ReentalTokens. There is no guarantee that our attempts to list the RNT MAD-6 Series ReentalTokens on any ATS or exchange will be successful, or that an active market for the RNT MAD-6 Series ReentalTokens will develop, or, if developed, be sustained. Currently, there is no public market for RNT MAD-6 Series RentalTokens and one may never be developed, which could cause RNT MAD-6 Series RentalTokens to trade at a discount and make it difficult for holders to sell them.

Legal restrictions on securities

The RNT MAD-6 Series ReentalTokens have not been registered under the securities laws of any state or jurisdiction worldwide, and, unless registered, the RNT MAD-6 Series ReentalTokens may not be offered or sold except pursuant to an exemption or in a transaction not subject to the registration requirements of the securities laws and other applicable laws. As a result, the RNT MAD-6 Series ReentalTokens are offered and sold only in jurisdictions where such registration or qualification is not required, including pursuant to applicable exemptions that generally limit the investors eligible to acquire RNT MAD-6 Series ReentalTokens and that restrict their resale. Accordingly, the RNT MAD-6 Series ReentalTokens are initially offered and sold only (1) to “accredited investors” (as defined in Regulation D) in compliance with Regulation D, in each instance, in a private transaction pursuant to the exemption from the Securities Act registration requirements provided by Regulation D, and (2) outside of the United States to investors who are not “U.S. persons” in offshore transactions pursuant to Regulation S under the Securities Act.

Digital Notices

ReentalTokens of the RNT MAD-6 Series are digital instruments and, as such, will not contain physical legends. However, purchasers (including secondary purchasers) of ReentalTokens of the RNT MAD-6 Series will receive information regarding transfer restrictions, including the legends listed below, and, at a minimum, must expressly acknowledge their understanding of the information and provide Reental America with certain representations regarding their investor status and location. Each ReentalToken of the RNT MAD-6 Series will incorporate legends substantially to the following effect:

THIS SECURITY, THAT IS, THE TOKEN (THE “TOKENS”), HAS NOT BEEN AND SHALL NOT BE REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED (THE “SECURITIES ACT”), OR UNDER THE SECURITIES LAWS OF ANY STATE OR JURISDICTION. NEITHER THIS SECURITY, NOR ANY INTEREST OR PARTICIPATION IN THEREIN, MAY BE OFFERED, SOLD, ASSIGNED, TRANSFERRED, PLEDGED, ENCUMBERED, OR OTHERWISE DISPOSED OF UNDER ANY CIRCUMSTANCES. THE TOKENS, WHEN ISSUED, WILL BE ISSUED IN A TRANSACTION EXEMPT FROM REGISTRATION UNDER THE SECURITIES ACT, AND MAY NOT BE TRANSFERRED IN THE UNITED STATES TO, OR FOR THE ACCOUNT OR BENEFIT OF, ANY U.S. PERSON (AS DEFINED IN REGULATION S UNDER THE SECURITIES ACT (“REGULATION S”)), EXCEPT PURSUANT TO AN AVAILABLE EXEMPTION FROM THE REGISTRATION REQUIREMENTS OF THE SECURITIES ACT AND ALL APPLICABLE STATE SECURITIES LAWS. EXCEPT AS PROVIDED BELOW, THE TOKENS WILL NOT BE EXCHANGEABLE FOR TOKENS THAT ARE NOT SUBJECT TO A LEGEND CONTAINING TRANSFER RESTRICTIONS UNTIL THE EXPIRATION OF THE APPLICABLE ONE-YEAR “DISTRIBUTION COMPLIANCE PERIOD” (WITH REGULATION S) AND ONLY UPON CERTIFICATION IN A FORM REASONABLY SATISFACTORY TO THE ISSUER AND ITS TRANSFER AGENT, IF ANY, THAT SUCH TOKENS ARE OWNED BY NON-AMERICAN PERSONS OR AMERICAN PERSONS WHO ACQUIRED SUCH INTERESTS IN A

TRANSACTION THAT DID NOT REQUIRE REGISTRATION UNDER THE SECURITIES ACT. The holder of any token agrees to offer, sell, or otherwise transfer such tokens, prior to the expiration of the one-year holding period applicable to restricted securities set forth in Rule 144 under the Securities Act (“Resale Restriction Termination Date”), only (a) to the issuer or any of its affiliates, (b) pursuant to a sale compliant with Regulation S, or (c) pursuant to a registration statement that has been declared effective under the Securities Act, subject, in each of the foregoing cases, to any statutory requirement that the disposition of its ownership or the Ownership of said buyer account(s) shall at all times be under its control and, in each case, in compliance with the applicable securities laws of any applicable jurisdiction. MATERIAL CONSIDERATIONS ON TAXATION IN THE UNITED STATES

The following is a summary of the principal U.S. federal tax consequences relating to the ownership and disposition of shares for U.S. holders, but it is not intended to be a comprehensive analysis of all possible related tax considerations. This summary is based on the provisions of the Internal Revenue Code of 1986, as amended (the “Code”), Treasury regulations issued thereunder, administrative rulings, and court decisions, all in effect as of the date hereof. These authorities may change, including retroactively, to result in federal tax consequences different from those set forth herein. No ruling has been sought from the Internal Revenue Service (the “IRS”) regarding the statements and conclusions contained in the following summary, and there can be no assurance that the IRS would agree with such statements and conclusions.

This summary also does not address tax considerations arising from the laws of any U.S. state or locality, or any jurisdiction outside the United States, or from U.S. federal gift and estate tax laws. Furthermore, this discussion does not address tax considerations applicable to an investor's particular circumstances or to investors who may be subject to special tax rules, including, without limitation:

- banks, insurance companies or other financial institutions;
- persons subject to the alternative minimum tax;
- tax-exempt organizations;
- intermediaries in securities or foreign exchange;
- securities traders who choose to use a “mark-to-market” accounting method for their holdings;
- certain former citizens or long-term residents of the United States;
- persons who hold the shares as part of a hedging transaction, “straddle”, “conversion transaction” or other risk reduction transaction;
- persons who do not hold the shares as a capital asset within the meaning of Section 1221 of the Code (generally, for investment purposes); or
- persons considered as sellers of shares under the constructive sale provisions of the Code.

Furthermore, if a partnership, including any entity or arrangement, domestic or foreign, classified as a partnership for U.S. federal tax purposes, holds shares, the tax treatment of a shareholder will generally depend on the shareholder's status and the partnership's activities. Accordingly, partnerships that hold shares, and shareholders in such partnerships, should consult their tax advisors.

It is strongly recommended that you consult your tax advisor regarding the application of United States federal tax laws to your particular situation, as well as any tax consequences arising from the purchase, ownership, and disposal of the shares under federal inheritance or gift tax rules, or under the laws of any state or locality in the United States, or any foreign jurisdiction, or under any applicable tax treaty.

Taxation as a Company

The Issuer, although incorporated as a Florida limited liability company eligible for corporate taxation, has affirmatively elected to have each of its holdings taxed as a corporation for all federal and state tax purposes. Therefore, the Issuer itself does not pay federal income tax; instead, gains and losses are passed on to investors, who will report them on their personal tax returns. This allows investors to avoid double taxation, although they may still owe taxes on allocated income even if they do not receive distributions. Furthermore, non-U.S. investors may be subject to withholding tax on their share of effectively connected income, regardless of whether distributions are made. Non-U.S. investors are strongly advised to consult with an independent tax advisor to understand the implications of these withholding requirements and how they may affect their investment.

Taxation of Distributions to Investors

A “U.S. Holder” includes a beneficial owner of shares who, for U.S. federal tax purposes, is a U.S. citizen or resident individual. Distributions to U.S. Holders from the Issuer’s current or accumulated profits and earnings are taxable as dividends. A U.S. Holder who receives a distribution that constitutes “qualified dividend income” may be eligible for reduced rates of federal income tax on that distribution. U.S. Holders are encouraged to consult with their tax advisors regarding the qualification of corporate distributions as “qualified dividend income.” Distributions that exceed the Issuer’s current and accumulated profits and earnings are not taxable to a U.S. Holder to the extent that such distributions do not exceed the adjusted tax base of the U.S. Holder’s shares. Instead, such distributions reduce the adjusted tax base of those shares. Distributions that exceed current and accumulated profits and earnings and that exceed the U.S. Owner’s adjusted basis in their holdings will be taxable as a capital gain up to the amount of such excess, provided the holdings are maintained as a capital asset. Additionally, under Section 1411 of the Code, a U.S. Owner may be subject to an additional 3.8% tax (the “3.8% NIIT”) on certain investment income. Generally, for individuals, this tax is 3.8% of the lower of (i) the taxpayer’s “net investment income” or (ii) the excess of the taxpayer’s adjusted gross income over the applicable threshold amount (\$250,000 for married joint filers, \$125,000 for married separate filers, and \$200,000 for most other taxpayers). In the case of an estate or trust, the 3.8% tax will be levied on the lesser of (x) the undistributed net investment income of the estate or trust for the tax year, or (y) the excess of the adjusted gross income of the estate or trust for that tax year over a starting amount (currently \$12,750) of the highest tax bracket for that year. Pursuant to Section 1411(c) of the Code, dividends are included as investment income in determining “net investment income.”

Shareholders who are not U.S. shareholders (for example, non-U.S. individuals or legal entities) may be subject to U.S. withholding tax on dividend payments at a rate of 30% (or a lower rate established by a treaty between the United States and the shareholder’s country of residence). The rules regarding the taxation of non-U.S. persons who own shares in a U.S. corporation are highly complex, and non-U.S. shareholders are strongly advised to consult with their own tax advisors regarding the potential federal tax consequences of their share ownership.

Taxation of the Disposition of Shares

In the event of a taxable sale or other disposition of shares, a U.S. Holder will recognize a gain or loss, for federal tax purposes, on the difference between the cash amount and the fair market value of any assets received in such disposition, and the U.S. Holder’s adjusted tax base in the shares. A U.S. Holder’s adjusted tax base in the shares generally equals the initial amount paid for the shares and is reduced by the amount of any distribution received by the investor that exceeds current or accrued profits and earnings of Rental America. In calculating the gain or loss, the proceeds received by U.S. Holders will include the amount of any cash and the fair market value of any other assets received for their shares, as well as the amount of any actual or presumed release of debts encumbering their shares. The gain or loss will be considered a long-term capital gain or loss if the shares have been held for more than one year prior to disposition. Currently, long-term capital gains of individuals, estates, and trusts are subject to a maximum rate of 20% (plus any applicable state taxes) plus the 3.8% NIIT. The deductibility of capital losses may be subject to limitations and depends on the particular circumstances of each U.S. holder; the effect of such a limitation may be to defer or eliminate any tax benefit that might otherwise result from a loss on the disposition of the holdings. Capital losses are first deducted against capital gains, and in the case of non-corporate taxpayers, any remaining loss is only deductible against wages or other service income or portfolio investment income up to a maximum of \$3,000 per year.

Dispositions of equity interests by non-U.S. holders are generally not subject to federal taxation unless they are held in the course of a U.S. trade or business or through a U.S. office or other place of business. The rules regarding the taxation of non-U.S. persons who own interests in a U.S. corporation are highly complex, and non-U.S. holders are strongly advised to consult with their own tax advisors regarding the potential federal tax consequences of any equity disposition.

Backup Retention and Information Reporting

In general, the issuer must report annually to the IRS the amount of dividends paid, its name and address, and the amount of taxes withheld, if any. A similar report will be sent to you.

Dividend payments or proceeds from the disposition of shares may be subject to additional reporting requirements and backup withholding at a current rate of 28%, unless you establish an exemption. Notwithstanding the foregoing, backup withholding and reporting may apply if we or our paying agent have actual knowledge, or reason to know, that you are a U.S. person.

Backup withholding is not an additional tax; rather, the tax liability of individuals subject to backup withholding is reduced by the amount withheld. If the withholding results in an overpayment of taxes, a refund or credit can generally be obtained from the IRS, provided the required information is submitted to the IRS in a timely manner.

The foregoing discussion of U.S. federal tax considerations is for general informational purposes only. It does not constitute tax advice. Each prospective investor should consult their own tax advisor regarding the federal, state, local, and foreign tax consequences, if any, of the purchase, holding, and disposal of the interests, including the consequences of any proposed changes in applicable laws.

The development of the RentalToken smart contract is based on several open-source projects to ensure the quality of our product. Our architecture includes the following main components:

- Underlying Asset Contract
- Participation Token (Security Token)
- KYC Registrar

Underlying Asset Contract

The Underlying Asset Contract contains the Company's information, such as: RentalToken Title Identifier, Company Legal Name, Full Deed Address (if applicable), City, State, Zip Code and Country, Tax Identifier, RentalToken Underlying Asset Contract Holder or Custodian, and RentalToken Agnostic Token Address on the Agnostic Token Main Network.

The Underlying Asset Contract is the simplest contract, acting as the parent of the Participation Contract to link the RentalTokens. One Underlying Asset Contract is deployed for each property or participation in a real estate investment club. The Underlying Asset Contract contains both the name of the relevant Series and the physical address of the property held by the Series or the details of the participation in the real estate investment club that holds the Series.

Security Token

Each Underlying Asset Contract will include the management of a Stakeholder Token (Security Token) contract. This contract contains the RentalTokens and the total supply. RentalTokens can be automatically deployed on the Token Agnostic Mainnet. RentalTokens incorporate an Administration module to create the following:

- Creation of a new Participation Token Offering
- Participation Token Offer Management, the sale can be open or time-limited.
- The deployment of the Participation Token will be on the Agnostic Token Main Network.
- Revoke and redeploy. This can make the Stake Token mutable. That is, a RentalToken can be redeployed to a new address on the Token Agnostic Network, update the Underlying Asset Contract, and cause the previous Stake Token to self-destruct, becoming null and void.

Each RentalToken Offering will have a unique tag. The unique tag includes the specific token name and related information. For example, the following table describes the properties of the RentalToken Stake Token Offering:

Token symbol	Token name	Token supply	Token-agnostic address
--------------	------------	--------------	------------------------

KYC/AML Registrar

KYC/AML validation will be performed off-chain through the Rental America web portal. Once the KYC/AML process is complete and the potential investor is verified, they will be added to an on-chain record by the KYC Registrar.

All Agnostic Token addresses in the registry will be automatically added to the chain. Each Agnostic Token address will have an associated name, visible on the Rental America administrative portal and linked to an identification document.

We will also maintain a backup database of whitelisted investors that will match the on-chain record.

Transferability of RentalToken

The transferability of all RentalTokens will depend on this Registrar's KYC/AML whitelist. RentalTokens can only be transferred to addresses that appear in the registry chain.

It will be impossible to transfer RentalTokens to an Agnostic Token address that is not on the whitelist. The only way for a person to be whitelisted is to complete the KYC/AML validation process.

The whitelists will be global, meaning that when a Rental America Series investor is whitelisted and a new Rental America Participation Token offering is launched, that investor will be able to participate in the new offering without having to repeat

the KYC/AML process. Rental America investors will be required to pass KYC/AML validation every six months to maintain regulatory compliance.

US buyers will be subject to a one year and one day transferability restriction.

Distributions shall only be made if sufficient cash is available after the distribution to meet the anticipated needs of the Company's business. No distribution shall be made to a Member if doing so would result in a negative capital account.

Otherwise, the Members shall have no authority to remove or terminate the Manager.

(i) A Manager may resign by giving thirty (30) days' written notice to the Members. A Manager shall have no personal liability to the Company or to the other Members for their resignation. However, the resignation does not relieve the Manager of any liability to the Company or to the other Members arising before the effective date of the resignation.

(j) When performing management functions for the Company, the Manager(s) may use the title of "Manager" or another title (including "President", "Director" or "Chief Executive Officer") as the Manager(s) may determine from time to time.

(m) A Manager may hire legal or accounting advisors for the Company.

5.2 Delegation of Authority; Managers and Employees.

(a) The Manager may appoint individuals as officers of the Company ("Officers") as he deems necessary or convenient to carry on the Business and may delegate to such Officers such power and authority as he deems appropriate; provided, however, that if such power and authority are not specifically designated, the Officers shall have the power and authority normally attached to such office under the Act. It is not necessary for an Officer to be a Member of the Company. Any person may hold two or more offices in the Company. Each Officer shall hold office until a successor is appointed by the Manager or until the Officer's death, resignation, or removal. Any Officer may resign at any time by written notice to the Manager. Any Officer may be removed by the Manager with or without cause at any time. A vacancy in any office that occurs due to death, resignation, removal, or other cause may, but is not necessarily, be filled by the Manager.

(b) The Manager is authorized to employ, hire or contract (at the Company's expense) or dismiss, as he deems necessary for the operation and management of the Company, persons ("Employees").

(c) The Manager may delegate to any Director or Employee (including any Manager's Affiliate) the duties, rights, and powers of the Manager, and for such periods as the Manager may determine. Neither the Manager nor any Director or Employee shall be liable for any loss suffered by the Company as a result of good faith reliance on the advice of any Affiliate so employed.

5.3 Member Affairs.

(a) Except as required by law or any other applicable law, the Company shall not be required to hold an annual meeting of Members or any other regular or periodic meeting of Members. A meeting of Members may only be called with at least ten (10) and no more than sixty (60) days' written notice of the date and location of such meeting. Notice of any meeting of Members may be waived by any Member before, during, or after such meeting. Notices shall be given in the manner set forth in Section 9.1. Any Member may attend any meeting in person, by videoconference, or by telephone.

(b) Each Member shall have the right to vote on all matters on which it is entitled to vote, whether under this Agreement or by law, as recorded in the Company's records, with a voting power equal to one Member's share, and each vote shall be equal to each Member's Percentage of Shareholding. Unless unanimous consent or other voting requirement of the Members is required under the terms of this Agreement or by law, the affirmative vote or consent of a supermajority of the Members, based on their Percentage of Shareholding, shall be required to perform any act of the Company. The presence, in person or by proxy, of Members holding not less than a majority of the voting percentage of shareholding at the time of the action constitutes a quorum at any meeting of the Members. If a quorum is present, the vote, in person or by proxy, of Members holding not less than one hundred percent (100%) of the voting percentage of shareholding on the matter shall be the

approval of the Members. If there is no quorum represented at any meeting of the Members, that meeting may be adjourned by the Manager.

(c) Any matter which must be voted on, consented to, or approved by the Members may be carried out without a meeting, without prior notice, and without a vote if consented to in writing by a Member or Members holding not less than the minimum number of votes that would be necessary to authorize or take such action. A record shall be kept by the Company of each action taken with the written consent of a Member or Members.

(d) Intentionally removed.

5.0 Limitation of Liability of Members; Indemnification.

(a) Except to the extent provided by law or applicable law, no Member shall be obligated or personally liable for the expenses, liabilities, or obligations of the Company, and each Member's liability shall be limited solely to the amount of its capital contributions. In addition, each Member and the Company hereby waive any fiduciary duty that, without such waiver, might be implied by applicable law, and in doing so, acknowledge and agree that the duties and obligations of each Member and Manager to each other and to the Company are only those expressly set forth in this Agreement.

(b) No Manager, Affiliate thereof, Director or Employee shall be liable, responsible or responsible to the Company or any Member for errors of judgment, acts performed or failure to act by such Manager, Director or Employee on behalf of or for the Company in good faith and in a manner reasonably considered by such Manager, Director or Employee to be in or not contrary to the best interests of the Company and within the scope of the authority conferred by this Agreement, except that the error of judgment, act or omission constitutes willful misconduct.

(c) The Company (but not any Member) will indemnify and hold harmless the Manager, Directors, and Employees from any loss, damage, liability, cost, or expense (including reasonable attorneys' fees) arising out of any act or omission by such Manager, Director, or Employee if such act or omission is (i) in good faith; (ii) within the scope of the authority granted to such Manager, Director, or Employee (as applicable) under this Agreement; and (iii) not attributable to willful misconduct. Any indemnification under this Section 5.0(c) will be paid solely from the assets of the Company, and no Member will have personal liability for it.

5.5 Major Decisions; Limitation to the Manager.

(a) Without prejudice to the powers conferred upon the Manager under this Agreement, the Manager shall have no authority or power to perform any of the following actions without the consent of the Members:

(i) Materially change the Company's Business;

9.4 Absence of Third-Party Beneficiaries No provision of this Agreement is intended to benefit any unrelated creditor to whom debts, liabilities, or obligations are owed by the Company or any of the Members, and no creditor shall have any right under such provisions or be able, by reason of such provisions, to make any claim with respect to any debt, liability, or obligation (or otherwise) against the Company or any of the Members.

Each Member in possession of Confidential Information shall take all appropriate measures to safeguard such information and protect it against disclosure, misuse, espionage, loss, and theft.

(c) The restrictions in Section 9.1 shall not apply to Confidential Information that: (i) is or becomes generally available to the public except by disclosure by a Member in violation of this Agreement; (ii) is or has been independently developed or conceived by such Member without use of Confidential Information; or (iii) becomes available to such Member or any of its Representatives on a non-confidential basis from a source other than the Company, the other Member, or any of its Representatives, provided that such source is not known to the receiving Member to be subject to a confidentiality agreement with respect to the Company.

(d) Notwithstanding any provision to the contrary herein, and without prejudice to any other express or implied agreement, arrangement, or understanding to the contrary, any Member and its Representatives may disclose to any Person, without limitation of any kind: (i) the tax treatment and tax structure of the transactions contemplated by this Agreement and the tax treatment and tax structure of all related transactions, and (ii) all materials of any kind (including tax opinions or other analyses) provided to such party relating to such tax treatment or tax structure. This authorization to disclose the tax treatment and tax structure is limited to the extent that confidentiality is required to comply with any Applicable Law.

(e) The obligations of each Member under this Section 9.14 shall survive while such Member remains a Member, and for one (1) year after the first of (i) termination, dissolution, liquidation and closure of the Company, (ii) withdrawal of such Member from the Company, and (iii) Transfer by such Member of its Participations.
